## Fiscal Impact:

Funds in the amount of $30,000.00 are budgeted in the Administrative Fund in Fiscal Year 2021. Funds in the amount of $80,000.00 are budgeted in the Transit Fund in Fiscal Year 2021. Funds will be budgeted in the same funds in future fiscal years.

## Background:

Pursuant to NRS 332.115.1(m), “Supplies, materials or equipment that are available pursuant to an agreement with a vendor that has entered into an agreement with the General Services Administration or another governmental agency located within or outside this State” are not subject to the requirements of competitive bidding. The City of Tucson has entered into a contract with Waxie Sanitary Supply to provide operational and janitorial supplies solutions.

This recommendation is to approve the attached Joinder Agreement and allow the Regional Transportation Commission of Southern Nevada to join in on to the City of Tucson’s Agreement No. 202329 to utilize its services for the period of Notice of Award through June 30, 2021, with two, two-year options.

Staff recommends approval.

Respectfully submitted,

M.J. MAYNARD
Chief Executive Officer

The provisions of this clause must be included in all subcontracts for work to be performed similar to the service provided by the prime supplier, and the terms “contract”, “supplier”, and “Purchasing Representative” modified approximately to preserve the RTC’s rights.

STANDARD TERMS AND CONDITIONS:

5. ASSIGNMENT-DELEGATION: No right or interest in this Contract shall be assigned by the Contractor without prior written permission of the City, and no delegation of any duty of the Contractor shall be made without prior written permission of the City's Director of Procurement. 22. INSPECTION AND ACCEPTANCE: All material or service is subject to final inspection and acceptance by the City. Material or service failing to conform to the specifications of this Contract shall be held at the Contractor's risk and may be returned to the Contractor within ninety (90) days. If returned, all costs are the responsibility of the Contractor. Noncompliance may be deemed a cause for possible Contract termination.

30. PAYMENT: The City will issue a Purchase Order and provide a credit card for payment at the time of ordering. Unless payment is made by credit card at the time of order or point of sale, a separate invoice shall be issued for each shipment of material or service performed, and no payment shall be issued prior to receipt of material or service and correct invoice. The invoice shall not be dated prior to the receipt of goods or completion of services.

The City shall make every effort to process payment for the purchase of materials or services within twenty-one (21) calendar days after receipt of materials or services and correct invoice. PUBLISH DATE: OCTOBER 28, 2019
INTRODUCTION

The City of Tucson (the "City") is requesting proposals from qualified and experienced firms to provide JANITORIAL AND SANITATION SUPPLIES. The City of Tucson requires a Contractor who provides a diverse and extensive supply of janitorial and sanitation supplies for delivery to various City locations in the Tucson metropolitan area and Participating Public Agencies, as well as a representative(s) to provide onsite product and service consultations, demonstrations, job/task cleaning direction and training.

The City seeks a Contractor that can provide a broad supply of products and services to ensure the support of daily maintenance operations. The Contractor will have a sophisticated infrastructure including strategically located, nationwide distribution centers and employ professional sales representatives to provide effective, timely service to the City of Tucson and to Participating Public Agencies.

Requirements and qualifications are defined in detail in the Scope of Services Section of this Request for Proposal (RFP).

NATIONAL CONTRACT

The City of Tucson as the Principal Procurement Agency, defined in Attachment A, has partnered with OMNIA Partners, Public Sector ("OMNIA Partners") to make the resultant contract (also known as the "Master Agreement" in materials distributed by OMNIA Partners) from this solicitation available to other public agencies nationally, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit ("Public Agencies"), through OMNIA Partners' cooperative purchasing program. The City of Tucson is acting as the contracting agency for any other Public Agency that elects to utilize the resulting Master Agreement. Use of the Master Agreement by any Public Agency is preceded by their registration with OMNIA Partners (a "Participating Public Agency") and by using the Master Agreement, any such Participating Public Agency agrees that it is registered with OMNIA Partners, whether pursuant to the terms of a Master Intergovernmental Purchasing Cooperative Agreement, a form of which is attached hereto on Attachment C, or as otherwise agreed to. Attachment A contains additional information about OMNIA Partners and the cooperative purchasing program.

OMNIA Partners is the largest and most experienced purchasing organization for public and private sector procurement. Through the economies of scale created by OMNIA Partners public sector subsidiaries and affiliates, National IPA and U.S. Communities, our participants now have access to more competitively solicited and publicly awarded cooperative agreements. The lead agency contracting process continues to be the foundation on which we are founded. OMNIA Partners is proud to offer more value and resources to state and local government, higher education, K-12 education and non-profits.

OMNIA Partners provides shared services and supply chain optimization to government, education and the private sector. With corporate, pricing and sales commitments from the Offerors OMNIA Partners provides marketing and administrative support for the Contractor that directly promotes the Contractor's products and services to Participating Public Agencies though multiple channels, each designed to promote specific products and services to Public Agencies on a national basis. Participating Public Agencies benefit from pricing based on aggregate spend and the convenience of a contract that has already been advertised and publicly competed. The Contractor benefits from a contract that generally allows Participating Public Agencies to directly purchase goods and services without the Contractor's need to respond to additional competitive
solicitations. As such, the Contractor must be able to accommodate a nationwide demand for services and to fulfill obligations as a nationwide Contractor and respond to the OMNIA Partners documents (Attachment A).

The City of Tucson anticipates spending approximately $2 million over the full potential Master Agreement term for Janitorial and Sanitation Supplies, Equipment and Related Services. While no minimum volume is guaranteed to the Contractor, the estimated annual volume of Janitorial and Sanitation Supplies, Equipment and Related Services purchased under the Master Agreement through OMNIA Partners is approximately $110 million annual aggregate volume. This projection is based on the current annual volumes among the City of Tucson, other Participating Public Agencies anticipated to utilize the resulting Master Agreement to be made available to them through OMNIA Partners, and volume growth into other Public Agencies through a coordinated marketing approach between the Supplier and OMNIA Partners.

The delayed party shall cause such delay to cease as soon as practicable and shall notify the other party in writing when it has done so. The time of completion shall be extended by contract modification for a period of time equal to the time that results or effects of such delay prevent the delayed party from performing in accordance with this Contract.

18. GRATUITIES: The City may, by written notice to the Contractor, terminate this Contract if it is found that gratuities, in the form of entertainment, gifts, meals or otherwise, were offered or given by the Contractor
or any agent or representative of the Contractor, to any officer or employee of the City amending, or the making of any determinations with respect to the performing of such Contract. Contractor is responsible for compliance with the Patient Protection and Affordable Care Act (ACA), for its employees in accordance with 26 CFR §54. 4980H. Additionally, Contractor is responsible for all applicable IRS reporting requirements related to ACA. If Contractor or any of Contractor's employees is certified to the City as having received a premium tax credit or cost sharing reduction which contributes to or triggers an assessed penalty against the City, or Contractor fails to meet reporting requirements pursuant to section 6056 resulting in a penalty to City, Contractor indemnifies City from and shall pay any assessed tax penalty.

21. **INDEPENDENT CONTRACTOR**: It is understood that each party shall act in its individual capacity and not as an agent, employee, partner, joint venturer, or associate of the other. An employee or agent of one party shall not be deemed or construed to be the employee or agent of the other party for any purpose.

The Contractor shall not be entitled to compensation in the form of salaries, holidays, paid vacation, sick days, or pension contributions by the City. The City of Tucson will not provide any insurance coverage to the Contractor, including Worker's Compensation coverage. The Contractor is advised that taxes, social security payments, and other withholdings shall not be withheld from a City payment issued under this Contract and that Contractor should make arrangements to directly pay such expenses. Contractor is responsible for compliance with the Affordable Care Act for Contractor and any of Contractor's employees.

22. **INSPECTION AND ACCEPTANCE**: All material or service is subject to final inspection and acceptance by the City. Material or service failing to conform to the specifications of this Contract shall be held at the Contractor's risk and may be returned to the Contractor. If returned, all costs are the responsibility of the Contractor. Noncompliance may be deemed a cause for possible Contract termination.

23. **INTERPRETATION-PAROL EVIDENCE**: This Contract is intended by the parties to be a final expression of their agreement and is intended also as a complete and exclusive statement of the terms of this agreement. No course of prior dealings between the parties and no usage of the trade shall be relevant to supplement or explain any term used in the Contract. Acceptance or consent in the course of performance under this Contract shall not be relevant to determine the meaning of this Contract even though the accepting or consenting party has knowledge of the nature of the performance and the opportunity to object.
24. ISRAEL BOYCOTT DIVESTMENTS: Acceptance of the contract warrants that the vendor is in compliance with A.R.S. § 35-393 and does not participate in a boycott of Israel as that term is defined within A.R.S. § 35-393.

25. LICENSES: Contractor shall maintain in current status all Federal, State, and local licenses and permits required for the operation of the business conducted by the Contractor as applicable to this Contract.

26. LIENS: All materials, services, and other deliverables supplied to the City under this Contract shall be free of all liens other than the security interest. Security interest shall extinguish upon full payment made by the City. Upon the City’s request, the Contractor shall provide a formal release of all liens.

27. NO REPLACEMENT OF DEFECTIVE TENDER: Every tender of materials must fully comply with all provisions of this Contract. If a tender is made which does not fully comply, this shall conform to the termination clause set forth within this document.

28. NON-EXCLUSIVE CONTRACT: Any contract resulting from this solicitation shall be awarded with the understanding and agreement that it is for the sole convenience of the City of Tucson. The City reserves the right to obtain like goods or services from another source when necessary.

29. OVERCHARGES BY ANTITRUST VIOLATIONS: The City maintains that, in actual practice, overcharges resulting from antitrust violations are borne by the purchaser. Therefore, to the extent permitted by law, the Contractor hereby assigns to the City any and all claims for such overcharges as to the materials or services used to fulfill the Contract.

30. PAYMENT: The City’s preferred method of payment is via credit card. The City will issue a Purchase Order and, in some cases, either provide a credit card for payment at the time of ordering or pay subsequent invoices by credit card upon receipt of goods or services in good order. However, not all City employees will possess a credit card and, therefore, the City reserves the right to make payment by check as it deems necessary.

Unless payment is made by credit card at time of order or point of sale, a separate invoice shall be issued for each shipment of material or service performed, and no payment shall be issued prior to receipt of material or service and correct invoice. The invoice shall not be dated prior to the receipt of goods or completion of services.

The City shall make every effort to process payment for the purchase of materials or services within twenty-one (21) calendar days after receipt of materials or services and a correct invoice.

The Contractor’s payment terms shall apply to all purchases and to all payment methods.

31. PROTECTION OF GOVERNMENT PROPERTY: The Contractor shall use reasonable care to avoid damaging existing buildings, equipment, and vegetation (such as trees, shrubs, and grass) on City property. If the Contractor fails to do so and damages such property, the Contractor shall replace or repair the damage at no expense to the City, as determined and approved by the City’s Director of Procurement. If the Contractor fails or refuses to make such repair or replacement, the City will determine a cost and the Contractor shall be liable for the cost thereof, which may be deducted from the Contract price.

32. PROVISIONS REQUIRED BY LAW: Each and every provision of law and any clause required by law to be in the Contract shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted, or is not correctly inserted, then upon the application of either party the Contract shall be amended to make such insertion or correction.

33. RECORDS: Internal control over all financial transactions related to this Contract shall be in accordance with sound fiscal policies. The City may, at reasonable times and places, audit the books and records of the Contractor and/or any subcontractors. Said audit shall be limited to this Contract.

34. RIGHT TO ASSURANCE: Whenever one party to this Contract has reason to question, in good faith, the other party's intent to perform, the former party may demand that the other party give a written assurance
of this intent to perform. In the event that a demand is made and no written assurance is given within five (5) days, the demanding party may treat this failure as the other party's intent not to perform and as a cause for possible Contract termination.

35. **RIGHT TO INSPECT:** The City may, at reasonable times, and at the City's expense, inspect the place of business of a Contractor or subcontractor which is related to the performance of any Contract as awarded or to be awarded.

36. **RIGHTS AND REMEDIES:** No provision in this document or in the Contractor's proposal shall be construed, expressly or by implication, as a waiver by either party of any existing or future right and/or remedy available by law in the event of any claim, default or breach of contract. The failure of either party to insist upon the strict performance of any term or condition of the Contract, to exercise or delay the exercise of any right or remedy provided in the Contract or by law, or to accept materials or services required by this Contract or by law shall not be deemed a waiver of any right of either party to insist upon the strict performance of the Contract.

37. **SEVERABILITY:** The provisions of this Contract are severable to the extent that any provision or application held to be invalid shall not affect any other provision or application of the Contract which may remain in effect without the valid provision or application.

38. **SHIPMENT UNDER RESERVATION PROHIBITED:** No tender of a bill of lading shall operate as a tender of the materials. Non-compliance shall conform to the termination clause set forth within this document.

39. **SUBCONTRACTS:** No subcontract shall be entered into by the Contractor with any other party to furnish any of the material/service specified herein without the advance written approval of the City's Director of Procurement. All subcontracts shall comply with Federal and State laws and regulations which are applicable to the services covered by the subcontract and shall include all the terms and conditions set forth herein which shall apply with equal force to the subcontract, as if the subcontractor were the Contractor referred to herein. The Contractor is responsible for contract performance whether or not subcontractors are used.

40. **SUBSEQUENT EMPLOYMENT:** The City may terminate this Contract without penalty or further obligation pursuant to A.R.S. Section 38-511 if any person significantly involved in initiating, negotiating, securing, drafting, or creating the Contract, on behalf of the City, is or becomes, at any time while the Contract or any extension of the Contract is in effect, an employee of, or a contractor to, any other party to this Contract with respect to the subject matter of the Contract. Termination shall be effective when written notice from the City's Director of Procurement is received by the parties to this Contract, unless the notice specifies a later time.

41. **TERMINATION OF CONTRACT:** This Contract may be terminated at any time by mutual written consent, or by the City, with or without cause, upon giving thirty (30) days written notice. The City, at its convenience, by written notice, may terminate this Contract, in whole or in part. If this Contract is terminated, the City shall be liable only for payment under the payment provisions of this Contract for services rendered and accepted material received by the City before the effective date of termination.

The City reserves the right to terminate the whole or any part of this Contract due to the failure of the Contractor to carry out any term or condition of the Contract. The City will issue a written ten (10) day notice of default to the Contractor for acting or failing to act as specified in any of the following:

In the opinion of the City, the Contractor provides personnel that do not meet the requirements of the Contract;

In the opinion of the City, the Contractor fails to perform adequately the stipulations, conditions or services/specifications required in this Contract;

The Contractor fails to furnish the required service and/or product within the time stipulated in the Contract;

In the opinion of the City, the Contractor fails to make progress in the performance of the requirements of the Contract;

The Contractor gives the City a positive indication that the Contractor will not or cannot perform to the requirements of the Contract.

Each payment obligation of the City created by this Contract is conditioned upon the availability of City, State and Federal funds that are appropriated or allocated for the payment of such an obligation. If funds are not allocated by the City and available for the continued purchase of the services and/or materials provided under this Contract, this Contract may be terminated by the City at the end of the period for which funds are available. The City will endeavor to notify the Contractor in the event that continued service will or may be affected by non-appropriation. No penalty shall accrue to the City in the event this provision is exercised, and the City shall not be obligated or liable for any future payments due or for any damages as a result of termination under this paragraph.

42. TITLE AND RISK OF LOSS: The title and risk of loss of material or service shall not pass to the City until the City actually receives the material or service at the point of delivery, unless otherwise provided within this Contract.

43. WARRANTIES: Contractor warrants that all material or service delivered under this Contract shall conform to the specifications of this Contract. Mere receipt of shipment of the material or service specified and any inspection incidental thereto by the City shall not alter or affect the obligations of the Contractor or the rights of the City under the foregoing warranties. 1.0 Scope of National Cooperative Contract

Capitalized terms not otherwise defined herein shall have the meanings given to them in the Master Agreement or in the Administration Agreement between Supplier and OMNIA Partners, Public Sector.

1.1 Requirement

The City of Tucson (hereinafter defined and referred to as “Principal Procurement Agency”), on behalf of itself and the National Intergovernmental Purchasing Alliance Company, a Delaware corporation d/b/a OMNIA Partners, Public Sector (“OMNIA Partners, Public Sector”), is requesting proposals for Janitorial and Sanitation Supplies, Equipment, and Related Services. The intent of this Request for Proposal is any contract between Principal Procurement Agency and Supplier resulting from this Request for Proposal (“Master Agreement”) be made available to other public agencies nationally, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit (“Public Agencies”), through OMNIA Partners, Public Sector’s cooperative purchasing program. The Principal Procurement Agency has executed a Principal Procurement Agency Certificate with OMNIA Partners, Public Sector, an example of which is included as Exhibit D, and has agreed to pursue the Master Agreement. Use of the Master Agreement by any Public Agency is preceded by their registration with OMNIA Partners, Public Sector as a Participating Public Agency in OMNIA Partners, Public Sector’s cooperative purchasing program. Registration with OMNIA Partners, Public Sector as a Participating Public Agency is accomplished by Public Agencies entering into a Master Intergovernmental Cooperative Purchasing Agreement, an example of which is attached as Exhibit C, and by using the Master Agreement, any such Participating Public Agency agrees that it is registered with OMNIA Partners, Public Sector, whether pursuant to the terms of the Master Intergovernmental Purchasing Cooperative Agreement or as otherwise agreed to. The terms and pricing established in the resulting Master Agreement between the Supplier and the Principal Procurement Agency will be the same as that available to Participating Public Agencies through OMNIA Partners, Public Sector.

All transactions, purchase orders, invoices, payments etc., will occur directly between the Supplier and each Participating Public Agency individually, and neither OMNIA Partners, Public Sector, any Principal Procurement Agency nor any Participating Public Agency, including their respective agents, directors, employees or representatives, shall be liable to Supplier for any acts, liabilities, damages, etc., incurred by any other Participating Public Agency. Supplier is responsible for knowing the tax laws in each state.
This Exhibit A defines the expectations for qualifying Suppliers based on OMNIA Partners, Public Sector’s requirements to market the resulting Master Agreement nationally to Public Agencies. Each section in this Exhibit A refers to the capabilities, requirements, obligations, and prohibitions of competing Suppliers on a national level in order to serve Participating Public Agencies through OMNIA Partners, Public Sector.

These requirements are incorporated into and are considered an integral part of this RFP. OMNIA Partners, Public Sector reserves the right to determine whether or not to make the Master Agreement awarded by the Principal Procurement Agency available to Participating Public Agencies, in its sole and absolute discretion, and any party submitting a response to this RFP acknowledges that any award by the Principal Procurement Agency does not obligate OMNIA Partners, Public Sector to make the Master Agreement available to Participating Procurement Agencies.

1.2 Marketing, Sales and Administrative Support

1.3 Estimated Volume

The dollar volume purchased under the Master Agreement is estimated to be approximately $110 million annually. While no minimum volume is guaranteed to Supplier, the estimated annual volume is projected based on the current annual volumes among the Principal Procurement Agency, other Participating Public Agencies that are anticipated to utilize the resulting Master Agreement to be made available to them through OMNIA Partners, Public Sector, and volume growth into other Public Agencies through a coordinated marketing approach between Supplier and OMNIA Partners, Public Sector.

1.4 Award Basis

Utilization of the Master Agreement by Participating Public Agencies will be at the discretion of the individual Participating Public Agency. FEDERAL FUNDS CERTIFICATIONS

FEDERAL CERTIFICATIONS
ADDENDUM FOR AGREEMENT FUNDED BY U.S. FEDERAL GRANT

TO WHOM IT MAY CONCERN:

Participating Agencies may elect to use federal funds to purchase under the Master Agreement. This form should be completed and returned.

DEFINITIONS

Contract means a legal instrument by which a non–Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non–Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward.

Contractor means an entity that receives a contract as defined in Contract.

Cooperative agreement means a legal instrument of financial assistance between a Federal awarding agency or pass-through entity and a non–Federal entity that, consistent with 31 U.S.C. 6302–6305:
(a) is used to enter into a relationship the principal purpose of which is to transfer anything of value from the Federal awarding agency or pass-through entity to the non–Federal entity to carry out a public purpose authorized by a law of the United States (see 31 U.S.C. 6101(3)); and not to acquire property or services for the Federal government or pass-through entity's direct benefit or use;
(b) is distinguished from a grant in that it provides for substantial involvement between the Federal awarding agency or pass-through entity and the non–Federal entity in carrying out the activity contemplated by the Federal award.
(c) The term does not include:
   (1) A cooperative research and development agreement as defined in 15 U.S.C. 3710a; or
   (2) An agreement that provides only:
      (i) Direct United States Government cash assistance to an individual;
      (ii) A subsidy;
      (iii) A loan;
      (iv) A loan guarantee; or
      (v) Insurance.

Federal awarding agency means the Federal agency that provides a Federal award directly to a non–Federal entity.

Federal award has the meaning, depending on the context, in either paragraph (a) or (b) of this section:
(a)(1) The Federal financial assistance that a non–Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability; or
(2) The cost-reimbursement contract under the Federal Acquisition Regulations that a non–Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability.
(b) The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of § 200.40 Federal financial assistance, or the cost-reimbursement contract awarded under the Federal Acquisition Regulations.
(c) Federal award does not include other contracts that a Federal agency uses to buy goods or services from a contractor or a contract to operate Federal government owned, contractor operated facilities (GOCOs).
(d) See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

Non–Federal entity means a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a Federal award as a recipient or subrecipient.

Nonprofit organization means any corporation, trust, association, cooperative, or other organization, not including IHEs, that:
(a) Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;
(b) is not organized primarily for profit; and
(c) uses net proceeds to maintain, improve, or expand the operations of the organization.

**Obligations** means, when used in connection with a non-Federal entity's utilization of funds under a Federal award, orders placed for property and services, contracts and subawards made, and similar transactions during a given period that require payment by the non-Federal entity during the same or a future period.

**Pass-through entity** means a non-Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.

**Recipient** means a non-Federal entity that receives a Federal award directly from a Federal awarding agency to carry out an activity under a Federal program. The term recipient does not include subrecipients.

**Simplified acquisition threshold** means the dollar amount below which a non-Federal entity may purchase property or services using small purchase methods. Non-Federal entities adopt small purchase procedures in order to expedite the purchase of items costing less than the simplified acquisition threshold. The simplified acquisition threshold is set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908. As of the publication of this part, the simplified acquisition threshold is $150,000, but this threshold is periodically adjusted for inflation. (Also see definition of § 200.67 Micro-purchase.)

**Subaward** means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

**Subrecipient** means a non-Federal entity that receives a subaward from a pass-through entity to carry out part of a Federal program; but does not include an individual that is a beneficiary of such program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.

**Termination** means the ending of a Federal award, in whole or in part at any time prior to the planned end of period of performance.

The following certifications and provisions may be required and apply when Participating Agency expends federal funds for any purchase resulting from this procurement process. Pursuant to 2 C.F.R. § 200.326, all contracts, including small purchases, awarded by the Participating Agency and the Participating Agency's subcontractors shall contain the procurement provisions of Appendix II to Part 200, as applicable.

**APPENDIX II TO 2 CFR PART 200**

Pursuant to Federal Rule (A) above, when a Participating Agency expends federal funds, the Participating Agency reserves all rights and privileges under the applicable laws and regulations with respect to this procurement in the event of breach of contract by either party.

In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland “Anti-Kickback” Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States”). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

Pursuant to Federal Rule (E) above, when a Participating Agency expends federal funds, offeror certifies that offeror will be in compliance with all applicable provisions of the Contract Work Hours and Safety Standards Act during the term of an award for all contracts by Participating Agency resulting from this procurement process.

The contractor or subcontractor agrees to inform in writing appropriate recruitment agencies in the area, including employment agencies, placement bureaus, colleges, universities, labor unions, that it does not discriminate on the basis of age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and that it will discontinue the use of any recruitment agency which engages in direct or indirect discriminatory practices.

The contractor or subcontractor agrees to revise any of it testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job-related testing, as established by the statutes and court decisions of the state of New Jersey and as established by applicable Federal law and applicable Federal court decisions.

The contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and lay-off to ensure that all such actions are taken without regard to age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and conform with the applicable employment goals, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

The contractor and its subcontractors shall furnish such reports or other documents to the Affirmative Action Office as may be requested by the office from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Affirmative Action Office for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code (NJAC 17:27).
C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. It is not intended to be provided to contractors. What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 (http://www.nj.gov/dca/divisions/dlgs/resources/lfn_2006.html). Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

1. The disclosure is required for all contracts in excess of $17,500 that are not awarded pursuant to a “fair and open” process (N.J.S.A. 19:44A-20.7).

2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. The form is worded to accept this alternate submission. The text should be amended if electronic submission will not be allowed.

3. The submission must be received from the contractor and on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.

4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.

   a. The Division has prepared model disclosure forms for each county. They can be downloaded from the “County PCD Forms” link on the Pay-To-Play website at http://www.nj.gov/dca/divisions/dlgs/programs/lpc1.html#12. They will be updated from time-to-time as necessary.

   b. A public agency using these forms should edit them to properly reflect the correct legislative district(s). As the forms are county-based, they list all legislative districts in each county. Districts that do not represent the public agency should be removed from the lists.

   c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.

   d. The form may be used “as-is”, subject to edits as described herein.

   e. The “Contractor Instructions” sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.

   f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.

5. It is recommended that the contractor also complete a “Stockholder Disclosure Certification.” This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract (See Local Finance Notice 2006-7 for additional information on this obligation at http://www.nj.gov/dca/divisions/dlgs/resources/lfn_2006.html). A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee* 
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
  - of the public entity awarding the contract
  - of that county in which that public entity is located
  - of another public entity within that county
  - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed $300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an "interest" ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, "a contribution by that person’s spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor’s responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor’s submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. NOTE: This section does not apply to Board of Education contracts.

* N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General
Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L. 1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures.”

5370-C Section 1

SECTION 3
Instructions to Offerors
Non-Construction

1. Preparation of Offers
   (a) Offerors are expected to examine the statement of work, the
       proposed contract terms and conditions, and all instructions. Failure
       to do so will be at the offeror’s risk.
   (b) Each offeror shall furnish the information required by the solicitation.
       The offeror shall sign the offer and print or type its name on the
       cover sheet and each continuation sheet on which it makes an entry.
       Erasures or other changes must be initialed by the person signing the
       offer. Offers signed by an agent shall be accompanied by evidence of
       that agent’s authority, unless that evidence has been previously
       furnished to the HA.
   (c) Offers for services other than those specified will not be consid- 

2. Submission of Offers
   (a) Offers and modifications thereof shall be submitted in sealed
       envelopes or packages (1) addressed to the office specified in the
       solicitation, and (2) showing the time specified for receipt, the solicita-
       tion number, and the name and address of the offeror.
   (b) Telegraphic offers will not be considered unless authorized by the
       solicitation; however, offers may be modified by written or telegraphic
       notice.
   (c) Facsimile offers, modifications or withdrawals will not be consid-

3. Amendments to Solicitations
   (a) If this solicitation is amended, then all terms and conditions which
       are not modified remain unchanged.
   (b) Offerors shall acknowledge receipt of any amendments to this
       solicitation by
       (1) signing and returning the amendment;
       (2) identifying the amendment number and date in the space
           provided for this purpose on the form for submitting an offer,
       (3) letter or telegram, or
       (4) facsimile, if facsimile offers are authorized in the solicitation.
       The HA/HUD must receive the acknowledgment by the time
       specified for receipt of offers.

4. Explanation to Prospective Offerors
   Any prospective offeror desiring an explanation or interpretation of the
   solicitation, work statement, etc., must request it in writing soon
   enough to allow a reply to reach all prospective offerors before the
   submission of their offers. Oral explanations or instructions given
   before the award of the contract will not be binding. Any information
   given to a prospective offeror concerning a solicitation will be furnished
   promptly to all other prospective offerors as an amendment of the
   solicitation, if that information is necessary in submitting offers or if the
   lack of it would be prejudicial to any other prospective offerors.

5. Responsibility of Prospective Contractor
   (a) The HA shall award a contract only to a responsible prospective
       contractor who is able to perform successfully under the terms and
       conditions of the proposed contract. To be determined responsible,
       prospective contractor must:
       (1) Have adequate financial resources to perform the contract, or
           the ability to obtain them;
       (2) Have a satisfactory performance record;
       (3) Have a satisfactory record of integrity and business ethics;
       (4) Have a satisfactory record of compliance with public policy
           (e.g., Equal Employment Opportunity); and
       (5) Not have been suspended, debarred, or otherwise determined
           to be ineligible for award of contracts by the Department of
           Housing and Urban Development or any other agency of the
           U.S. Government. Current lists of ineligible contractors are
           available for inspection at the HA/HUD.

   (b) Before an offer is considered for award, the offeror may be
       requested by the HA to submit a statement or other documentation
       regarding any of the foregoing requirements. Failure by the offeror to
       provide such additional information may render the offeror ineligible
       for award.

6. Late Submissions, Modifications, and Withdrawal of Offers
   (a) Any offer received at the place designated in the solicitation after
       the exact time specified for receipt will not be considered unless it is
       received before award is made and if
       (1) Was sent by registered or certified mail not later than the fifth
           calendar day before the date specified for receipt of offers
           (e.g., an offer submitted in response to a solicitation requiring
           receipt of offers by the 20th of the month must have been
           mailed by the 15th);
       (2) Was sent by mail, or if authorized by the solicitation, was sent
           by telegram or via facsimile, and it is determined by the HA/
           HUD that the late receipt was due solely to mishandling by the
           HA/HUD after receipt at the HA;
       (3) Was sent by U.S. Postal Service Express Mail Next Day
           Service - Post Office to Addressee, not later than 5:00 p.m. at
           the place of mailing two working days prior to the date specified
           for receipt of proposals. The term "working days" excludes
           weekends and U.S. Federal holidays; or
       (4) Is the only offer received.

   (b) Any modification of an offer, except a modification resulting from
       the HA’s request for "best and final" offer (if this solicitation is a request
       for proposals), is subject to the same conditions as in subparagraphs
       (a)(1), (2), and (3) of this provision.

   (c) A modification resulting from the HA’s request for "best and final"
       offer received after the time and date specified in the request will not
       be considered unless received before award and the late receipt is due
       solely to mishandling by the HA after receipt at the HA.

   (d) The only acceptable evidence to establish the date of mailing of a
       late offer, modification, or withdrawal sent either by registered or
       certified mail is the U.S. or Canadian Postal Service postmark both on
       the envelope or wrapper and on the original receipt from the U.S. or
       Canadian Postal Service. Both postmarks must show a legible date
       or the offer, modification, or withdrawal shall be processed as if mailed
       late. "Postmark" means a printed, stamped, or otherwise placed
       impression (exclusive of a postage meter machine impression) that is
       readily identifiable without further action as having been supplied and
       affixed by employees of the U.S. or Canadian Postal Service on the
       date of mailing. Therefore, offerors should request the postal clerk to
       place a hand cancellation bull’s-eye postmark on both the receipt and
       the envelope or wrapper.

   (e) The only acceptable evidence to establish the time of receipt at the
       HA is the time/date stamp of HA on the offer wrapper or other
       documentary evidence of receipt maintained by the HA.
(f) The only acceptable evidence to establish the date of mailing of a late offer, modification, or withdrawal sent by Express Mail Next Day Service-Post Office to Addressee is the date entered by the post office receiving clerk on the "Express Mail Next Day Service-Post Office to Addressee" label and the postmark on both the envelope or wrapper and on the original receipt from the U.S. Postal Service. "Postmark" has the same meaning as defined in paragraph (c) of this provision, excluding postmarks of the Canadian Postal Service. Therefore, offerors should request the postal clerk to place a legible hand cancellation bull's eye postmark on both the receipt and the envelope or wrapper.

(g) Notwithstanding paragraph (a) of this provision, a late modification of an otherwise successful offer that makes its terms more favorable to the HA will be considered at any time it is received and may be accepted.

(h) If this solicitation is a request for proposals, proposals may be withdrawn by written notice, or if authorized by this solicitation, by telegram (including facsimile) or facsimile machine transmission received at any time before award. Proposals may be withdrawn in person by an offeror or its authorized representative if the identity of the person requesting withdrawal is established and the person signs a receipt for the offer before award. If this solicitation is an invitation for bids, bids may be withdrawn at any time prior to bid opening.

7. Contract Award

(a) The HA will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the HA, cost or price and other factors, specified elsewhere in this solicitation, considered.

(b) The HA may

1. reject any or all offers if such action is in the HA's interest,
2. accept other than the lowest offer,
3. waive informality and minor irregularities in offers received, and
4. award more than one contract for all or part of the requirements stated.

(c) If this solicitation is a request for proposals, the HA may award a contract on the basis of initial offers received, without discussions. Therefore, each initial offer should contain the offeror's best terms from a cost or price and technical standpoint.

(d) A written award or acceptance of offer mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer shall result in a binding contract without further action by either party. If this solicitation is a request for proposal before the offer's specified expiration time, the HA may accept an offer, whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award. Negotiations conducted after receipt of an offer do not constitute a rejection or counteroffer by the HA.

(e) Neither financial data submitted with an offer, nor representations concerning facilities or financing, will form a part of the resulting contract.

8. Service of Protest

Any protest against the award of a contract pursuant to this solicitation shall be served on the HA by obtaining written and dated acknowledgment of receipt from the HA at the address shown on the cover of this solicitation. The determination of the HA with regard to such protest or to proceed to award notwithstanding such protest shall be final unless appealed by the protestor.

9. Offer Submission

Offers shall be submitted as follows and shall be enclosed in a sealed envelope and addressed to the office specified in the solicitation. The proposal shall show the hour and date specified in the solicitation for receipt, the solicitation number, and the name and address of the offeror, on the face of the envelope.

It is very important that the offer be properly identified on the face of the envelope as set forth above in order to insure that the date and time of receipt is stamped on the face of the offer envelope. Receiving procedures are: date and time stamp those envelopes identified as proposals and deliver them immediately to the appropriate contract official, and only date stamp those envelopes which do not contain identification of the contents and deliver them to the appropriate procuring activity only through the routine mail delivery procedure.

2. Changes

(a) The HA may at any time, by written order, and without notice to the sureties, if any, make changes within the general scope of this contract in the services to be performed or supplies to be delivered.
(b) If any such change causes an increase or decrease in the hourly rate, the not-to-exceed amount of the contract, or the time required for performance of any part of the work under this contract, whether or not changed by the order, or otherwise affects the conditions of this contract, the HA shall make an equitable adjustment in the not-to-exceed amount, the hourly rate, the delivery schedule, or other affected terms, and shall modify the contract accordingly.
(c) The Contractor must assert its right to an equitable adjustment under this clause within 30 days from the date of receipt of the written order. However, if the HA decides that the facts justify it, the HA may receive and act upon a proposal submitted before final payment of the contract.
(d) Failure to agree to any adjustment shall be a dispute under clause Disputes, herein. However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.
(e) No services for which an additional cost or fee will be charged by the Contractor shall be furnished without the prior written consent of the HA.

3. Termination for Convenience and Default

(a) The HA may terminate this contract in whole, or from time to time in part, for the HA's convenience or the failure of the Contractor to fulfill the contract obligations (default). Upon receipt of the notice, the Contractor shall: (i) immediately discontinue all services affected (unless the notice directs otherwise); and (ii) deliver to the HA all information, reports, papers, and other materials accumulated or generated in performing this contract, whether completed or in process.
(b) If the termination is for the convenience of the HA, the HA shall be liable only for payment for services rendered before the effective date of the termination.
(c) If the termination is due to the failure of the Contractor to fulfill its obligations under the contract (default), the HA may (i) require the Contractor to deliver to it, in the manner and to the extent directed by the HA, any work as described in subparagraph (a)(ii) above, and compensation be determined in accordance with the Changes clause, paragraph 2, above; (ii) take over the work and prosecute the same to completion by contract or otherwise, and the Contractor shall be liable for any additional cost incurred by the HA; (iii) withhold any payments to the Contractor, for the purpose of off-set or partial payment, as the case may be, of amounts owed to the HA by the Contractor.
(d) If, after termination for failure to fulfill contract obligations (default), it is determined that the Contractor had not failed, the termination shall be deemed to have been effected for the convenience of the HA, and the Contractor shall be entitled to payment as described in paragraph (b) above.

(b) All claims by the Contractor shall be made in writing and submitted to the HA. A claim by the HA against the Contractor shall be subject to a written decision by the HA.

(c) The HA shall, with reasonable promptness, but in no event in no more than 60 days, render a decision concerning any claim hereunder. Unless the Contractor, within 30 days after receipt of the HA's decision, shall notify the HA in writing that it takes exception to such decision, the decision shall be final and conclusive.

(d) Provided the Contractor has (i) given the notice within the time stated in paragraph (c) above, and (ii) excepted its claim relating to such decision from the final release, and (iii) submitted against the HA not later than one year after receipt of final payment, or if final payment has not been made, not later than one year after the Contractor has had a reasonable time to respond to a written request by the HA that it submit a final voucher and release, whichever is earlier, then the HA's decision shall not be final or conclusive, but the dispute shall be determined on the merits by a court of competent jurisdiction.

(e) The Contractor shall proceed diligently with performance of this contract, pending final resolution of any request for relief, claim, appeal, or action arising under the contract, and comply with any decision of the HA.

8. Contract Termination; Debarment

9. Assignment of Contract

The Contractor shall not assign or transfer any interest in this contract; except that claims for monies due or to become due from the HA under the contract may be assigned to a bank, trust company, or other financial institution. If the Contractor is a partnership, this contract shall inure to the benefit of the surviving or remaining member(s) of such partnership approved by the HA.

10. Certificate and Release

Prior to final payment under this contract, or prior to settlement upon termination of this contract, and as a condition precedent thereto, the Contractor shall execute and deliver to the HA a certificate and release, in a form acceptable to the HA, of all claims against the HA by the Contractor under and by virtue of this contract, other than such claims, if any, as may be specifically excepted by the Contractor in stated amounts set forth therein.

11. Organizational Conflicts of Interest

(a) The Contractor warrants that to the best of its knowledge and belief and except as otherwise disclosed, it does not have any organizational conflict of interest which is defined as a situation in which the nature of work under this contract and a contractor's organizational, financial, contractual or other interests are such that:

The Contractor shall include in such subcontracts and consulting agreements any necessary provisions to eliminate or neutralize conflicts of interest.

12. Inspection and Acceptance

(a) The HA has the right to review, require correction, if necessary, and accept the work products produced by the Contractor. Such review(s) shall be carried out within 30 days so as to not impede the work of the Contractor. Any

the HA does not issue written comments and/or required
corrections within 30 days from the date of receipt of such
product from the Contractor.
(b) The Contractor shall make any required corrections
promptly at no additional charge and return a revised copy
of the product to the HA within 7 days of notification or a
later date if extended by the HA.
(c) Failure by the Contractor to proceed with reasonable
promptness to make necessary corrections shall be a
default. If the Contractor's submission of corrected work

cost to reflect the reduced value of services received.

13. Interest of Members of Congress

No member of or delegate to the Congress of the United States

(a) The prohibition on the use of appropriated funds, in paragraph (i) of this section, does not apply in the case of a payment of reasonable compensation made to an officer or employee of a person requesting or receiving a Federal contract, grant, loan, or cooperative agreement, if the payment is for agency and legislative activities not directly related to a covered Federal action.

(b) For purposes of paragraph (b)(i)(1)(a) of this clause, providing any information specifically requested by an agency or Congress is permitted at any time.

(ii) Any reasonable payment to a person, other than an officer or employee of a person requesting or receiving a covered Federal action or an extension, continuation, renewal, amendment, or modification of a covered Federal action if the payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal action or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal action. Persons other than officers or employees of a person requesting or receiving a covered Federal action include consultants and trade associations.

(e) Penalties. Any person who makes an expenditure prohibited under paragraph (b) of this clause shall be subject to civil penalties as provided for by 31 U.S.C. 1352. An imposition of a civil penalty does not prevent the Government from seeking any other remedy that may be applicable.

(f) Cost Allowability. Nothing in this clause is to be interpreted to make allowable or reasonable any costs which would be unallowable or unreasonable in accordance with Part 31 of the Federal Acquisition Regulation (FAR), or OMB Circulars dealing with cost allowability for recipients of assistance agreements. Conversely, costs made specifically unallowable by the requirements in this clause will not be made allowable under any of the provisions of FAR Part 31 or the relevant OMB Circulars.

Such action shall include, but not be limited to (1) employment; (2) upgrading; (3) demotion; (4) transfer; (5) recruitment or recruitment advertising; (6) layoff or termination; (7) rates of pay or other forms of compensation, and (8) selection for training, including apprenticeship.

(c) The Contractor shall post in conspicuous places available to employees and applicants for employment the notices to be provided by the Contracting Officer that explain this clause.

PUBLISH DATE: OCTOBER 28, 2019
INTRODUCTION

The City of Tucson (the “City”) is requesting proposals from qualified and experienced firms to provide JANITORIAL AND SANITATION SUPPLIES. The City of Tucson requires a Contractor who provides a diverse and extensive supply of janitorial and sanitation supplies for delivery to various City locations in the Tucson metropolitan area and Participating Public Agencies, as well as a representative(s) to provide onsite product and service consultations, demonstrations, job/task cleaning direction and training.

The City seeks a Contractor that can provide a broad supply of products and services to ensure the support of daily maintenance operations. The Contractor will have a sophisticated infrastructure including strategically located, nationwide distribution centers and employ professional sales representatives to provide effective, timely service to the City of Tucson and to Participating Public Agencies.

Requirements and qualifications are defined in detail in the Scope of Services Section of this Request for Proposal (RFP).

NATIONAL CONTRACT

The City of Tucson as the Principal Procurement Agency, defined in Attachment A, has partnered with OMNIA Partners, Public Sector (“OMNIA Partners”) to make the resultant contract (also known as the “Master Agreement” in materials distributed by OMNIA Partners) from this solicitation available to other public agencies nationally, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit (“Public Agencies”), through OMNIA Partners’ cooperative purchasing program. The City of Tucson is acting as the contracting agency for any other Public Agency that elects to utilize the resulting Master Agreement. Use of the Master Agreement by any Public Agency is preceded by their registration with OMNIA Partners (a “Participating Public Agency”) and by using the Master Agreement, any such Participating Public Agency agrees that it is registered with OMNIA Partners, whether pursuant to the terms of a Master Intergovernmental Purchasing Cooperative Agreement, a form of which is attached hereto on Attachment C, or as otherwise agreed to. Attachment A contains additional information about OMNIA Partners and the cooperative purchasing program.

OMNIA Partners is the largest and most experienced purchasing organization for public and private sector procurement. Through the economies of scale created by OMNIA Partners public sector subsidiaries and affiliates, OMNIA and U.S. Communities, our participants now have access to more competitively solicited and publicly awarded cooperative agreements. The lead agency contracting process continues to be the foundation on which we are founded. OMNIA Partners is proud to offer more value and resources to state and local government, higher education, K-12 education and non-profits.

OMNIA Partners provides shared services and supply chain optimization to government, education and the private sector. With corporate, pricing and sales commitments from the Offerors OMNIA Partners provides marketing and administrative support for the Contractor that directly promotes the Contractor’s products and services to Participating Public Agencies through multiple channels, each designed to promote specific products and services to Public Agencies on a national basis. Participating Public Agencies benefit from pricing based on aggregate spend and the convenience of a contract that has already been advertised and publicly competed. The Contractor benefits from a contract that generally allows Participating Public Agencies to directly purchase goods and services without the Contractor’s need to respond to additional competitive
solicitations. As such, the Contractor must be able to accommodate a nationwide demand for services and to fulfill obligations as a nationwide Contractor and respond to the OMNIA Partners documents (Attachment A).

The City of Tucson anticipates spending approximately $2 million over the full potential Master Agreement term for Janitorial and Sanitation Supplies, Equipment and Related Services. While no minimum volume is guaranteed to the Contractor, the estimated annual volume of Janitorial and Sanitation Supplies, Equipment and Related Services purchased under the Master Agreement through OMNIA Partners is approximately $110 million annual aggregate volume. This projection is based on the current annual volumes among the City of Tucson, other Participating Public Agencies anticipated to utilize the resulting Master Agreement to be made available to them through OMNIA Partners, and volume growth into other Public Agencies through a coordinated marketing approach between the Supplier and OMNIA Partners.

NETWORK and WAXIE will continue using a fixed price model based on a combination of the manufacturer and WAXIE’s published list price for City of Tucson. Discounts off published list price are shown, where available, however, in many cases a manufacturer list price is not available. Quoted prices and subsequent price changes are based on a fixed cost and supported with letters from the manufacturer in cases of increase or decrease. NETWORK and WAXIE propose the following Large Volume discount off invoice for City of Tucson and OMNIA: For orders of $2,500 and above, NETWORK and WAXIE will provide 5% off invoice. Special Offers/Promotions:
In addition to decreasing prices for the balance of the Contract term due to a change in market conditions, Contractor may conduct sales promotions involving price reductions for a specified lesser period. Contractor may offer Participating Public Agencies competitive pricing which is lower than the not-to-exceed price set forth herein at any time during the Contract term and such lower pricing shall not be applied as a global price reduction under the Contract.

Provide details of and propose additional discounts for volume orders, special manufacturer’s offers, minimum order quantity, free goods program, total annual spend, etc.

NETWORK works with key manufacturers on various programs which will offer cost savings based on ‘special buys’, promotional goods, quantity price breaks, etc. These incentives are mutually agreed upon between NETWORK, the manufacturer, and The City/OMNIA to engage agencies in increased location sales and new location penetration.

i. **Inventory Solutions/Vendor Managed Inventory** –
WAXIE’s Vendor Managed Inventory (VMI) program provides easy ordering for managed inventory. WAXIE VMI uses a smart device app to collect and transmit your inventory order. VMI is available for iOS, Android and Windows 8 tablet devices.

VMI uses QR Codes to quickly identify the closet where inventory is required. Par levels are established for each product in the closet for quick and easy ordering. Simply enter the quantity on-hand into the VMI app, and the app will calculate the quantity needed to replenish to the Par level. Users will have access to only the closets where they are responsible for the inventory. The order is then transmitted directly to WAXIE unless an approval is needed. If an approval is needed, the approver is notified of the order and the order will be held pending approval. Orders can also be sent to the customer’s procurement system for processing prior to submitting the order to WAXIE. Additional features available include offline inventory collection for future order submission when the internet is not available, view all available closets and their order history, year-to-date (YTD) Inventory Graph, YTD Order Graph, the monthly number of inventories performed and the number of monthly orders submitted. Please see Exhibit A 3.2A – WAXIE VMI Brochure.

ii. **Emergency Preparedness** –

e. **Green/Sustainability Program:**

   i. **Policies:** Efforts and policies pertaining to green and sustainability.

**WAXIE Sustainability Policies:**

*Environmentally Preferable Purchasing Policy/Commitment to Sustainability*

WAXIE is committed to being a leader to promote responsible business practices that support sustainable communities which are secure, economically prosperous, environmentally responsible and healthy places in which to live and work. As evidence of WAXIE's commitment to sustainability, WAXIE is proud to employ 8 LEED Accredited Professionals and 38 CIMS Certified Professionals on staff that are able to assist City of Tucson and any contract end user with the gathering of information to support their LEED project. WAXIE has participated in support of customer LEED projects for the past 16 years and looks forward to opportunities to work with contract customers to achieve their green building goals. WAXIE has two LEED Certified Silver Level buildings one in Mesa, AZ, and one in Salt Lake City, UT.

WAXIE shares the goal of establishing partnerships to advance education, communication, business best practices, policies, research, technologies and programs to support a more sustainable region for all generations.

WAXIE is committed to adopting more sustainable business practices for The City and OMNIA and to partnering with their stakeholders to identify and implement the most effective facility maintenance solutions to protect and enhance the triple bottom line of human health, environmental stewardship, and economic prosperity.

WAXIE's goal for their Environmentally Preferable Purchasing Policy is to ensure that products and services purchased or contracted for by the company will conform with the goals of Commitment to Sustainability, Corporate Mission and Vision Statements. WAXIE will strive, where possible, to purchase environmentally preferable products and services that will help the agencies meet their needs of the present without compromising their needs of the future.

Where possible, purchasing decisions shall favor:

- Products that reduce waste
- Reusable products
- Products that are recyclable or compostable
- Products that contain the highest possible percentage of postconsumer recycled content
- Products that reduce the use of chemicals that are hazardous to the environment and employee and public health
- Products that reduce air and water pollution
- Products that reduce greenhouse gas emissions or are made with renewable energy
- Products that serve several functions and reduce the overall number of products purchased
- Suppliers who strive to improve their environmental performance and provide environmentally preferable products, and who can document the supply-chain impacts of their efforts
Environmentally preferable products and services which are determined to be comparable to their “traditional” counterparts in quality and price shall receive purchasing preference. In situations where a more environmentally preferable product or service is unavailable or impractical, secondary considerations shall include the environmental management practices of suppliers and producers, as well as the relative proximity of the manufacturing facility to WAXIE Inventory Centers. As an example, WAXIE consulted with Sky Harbor Airport in purchasing their paper products from a paper manufacturing facility in Flagstaff, AZ, therefore decreasing their carbon footprint as well as receiving accolades for supporting business in Arizona.

The purchase of environmentally preferable products is part of WAXIE’s long-term commitment to sustainability. By communicating this commitment to our vendor and customer partners, WAXIE hopes to support wider adoption of environmentally preferable products and practices.

WAXIE’s Environmentally Preferable Purchasing Policy is rooted in the company’s overall mission and vision statement.

WAXIE has over 1100 products in our stock offering that are third party verified, meet EPA requirements for PCRC, contain recycled material content, or meet other strict environmental criteria like those for the Southern California Air Resources Board.

WAXIE has dozens of branded products that are Green Seal Certified, UL/ECOLOGO certified, SCS, BPA, FSC, and other environmental certifications. These widely recognized organizations provide customers the assurance that our Green products have been thoroughly tested and rated by trustworthy third parties.

WAXIE is the leader in the sanitary supply distribution industry and is heavily invested in an overall commitment to the environment while providing the largest number of Green Seal certified products available anywhere. WAXIE has the strongest and broadest environmentally friendly and third party certified green product offering available. WAXIE also brings the most knowledgeable and well trained consulting capacity of any facility supply company.

WAXIE has developed the “WAXIE-GREEN” line of products which include cleaning chemicals, sanitary paper, trash liners, and hand soaps. WAXIE provides a compelling combination of product innovation, performance, price and a more environmentally preferable profile. WAXIE Sanitary Supply distributes over 4,600 stocked products, and close to 20% of those products can be identified as either being third-party certified or having an environmentally preferable attribute. Many of these products contain post-consumer recycled content meeting EPA guidelines, contribute to water conservation (water-free urinals), or help to divert waste from landfills (recycling containers).

WAXIE continually evaluates its product mix and has proactively converted products to a more environmentally preferable alternative while simultaneously phasing out the more “traditional” incumbent products.

WAXIE’s goal is to provide WAXIE customers with product options which can contribute to an effective green cleaning program and do not compromise on performance, health and safety, environmental impact or price. Historically WAXIE has achieved overall green spend on public sector GPO contracts in excess of 40% through focused sales efforts and incentives for customers to purchase green products.

WAXIE has achieved green spend in excess of 80% at several customers that have focused their environmental services departments toward a complete green strategy.
iii. Distribution: Impact on distribution process.

NETWORK is committed to a proactive approach in balancing today’s economic realities with the responsibility of implementing sustainable business processes. We continually work to reduce our own ecological footprint as an organization, including the use of local fleets with dynamic routing for reduced carbon emissions, local sourcing, recycling and energy conservation programs, e-business transactions and the use of Energy Star appliances.

WAXIE’s fleet of delivery vehicles and drivers are professionally logged and are managed through a sophisticated Route Optimization Suite that enables WAXIE to monitor the delivery process from door to door using both GPS and a Driver Mobility Application. Our route optimization software minimizes WAXIE’s carbon footprint by significantly reducing travel time from the last stop to the next stop. Overall, less fuel is burned by optimizing the travel path and the time our trucks are on the road.

WAXIE also employs three CNG powered trucks in California and has been able to avoid the use of over 25,000 gallons of gasoline or diesel during the 2018 year. WAXIE will be expanding the natural gas fleet as commercial filling stations become more available. The CNG trucks produce a tiny fraction of the pollution that gas and diesel engines produce. The CNG trucks offer fuel cost savings as well as being 100% zero emissions.

iv. Certifications: The industry recognized certifications and standards obtained and those represented through its catalog of products.

WAXIE has hundreds of branded products that are Green Seal Certified, UL/ECOLOGO certified, SCS, BPA, FSC, and other environmental certifications. These combined sources of supply allow WAXIE customers access to over 10,000 stocked janitorial supply products, over 100,000 equipment repair parts, and over 100,000 maintenance repair and operating supply products.

NETWORK’s Global Procurement Team is tasked with researching, sourcing, and importing items which may meet the needs of select customers requiring unique products. Please discuss availability with your local NETWORK distributor to explore options.

   i. Other Services/Programs: Other value-add services not included in above categories, such as installation of chemical and paper product dispensing units.

NETWORK has a strong customer centric focus that allows us to customize specific programs for our strategic customers. NETWORK would work with OMNIA in three specific areas initially to provide incremental unique value for OMNIA participating agencies:
Environmental Effectiveness Audits – NETWORK would provide a baseline assessment for participating OMNIA locations to determine current sustainability and green awareness and where NETWORK could help the agency make improvements. NETWORK distributors would also help develop a carbon footprint analysis based on improved service models.

NETWORK has a significant presence in a number of other product categories specifically Printing/Communications Paper, Industrial Packaging, Safety/Personal Protection, and Food Service Disposables.

NETWORK distributors would offer these other core competent product categories to OMNIA PPA’s as additional value added solutions thereby allowing the agency to centralize more spend and reduce deliveries and the resulting carbon footprint. NETWORK distributor’s expansive capabilities make us a complete supplier for OMNIA PPA’s. Centralizing spend and supporting limited suppliers with more diverse capabilities like NETWORK is the best value for OMNIA PPA’s.

NETWORK distributors have over 400 warehouse locations and 5,000 owned and operated delivery vehicles. This large logistic and warehouse footprint enables NETWORK to develop customized logistic solutions for OMNIA PPA’s that encompasses the janitorial category but could be expanded to non-related products utilized by the OMNIA PPA’s. This logistic capability combined with NETWORK focus on customer centric solutions means that we will look to collaborate with OMNIA PPA’s to deliver unique programs.

NETWORK provides OMNIA with a quarterly business review and The City with an annual business review; outlining the impact we’ve made through joint efforts with our NETWORK distributors, OMNIA and their agencies, NETWORK key preferred manufacturers, and our Marketing team. Detailed support documentation of sales, SKU rationalization efforts, marketing programs, training sessions, account penetration and other successes/challenges are presented and discussed. This is a testament to our on-going support, continuous improvement efforts and dedication to our OMNIA program.

Other WAXIE Value Added Services

Local Installation and Dispenser Support

WAXIE employs a dedicated installer that City of Tucson contract end users can utilize for installation of chemical and paper dispensers. Installation support is also available through many of WAXIE’s manufacturer partners. From 2016 through 2019 YTD, WAXIE was able to save The City of Tucson over $30,000.00 in the cost of their dispenser installations vs. traditional installation costs.

Waste Minimization

WAXIE is committed to adopting more sustainable business practices for The City of Tucson/OMNIA and its agencies, and to partnering with its stakeholders to identify and implement the most effective facility maintenance solutions to protect and enhance the triple bottom line of human health, environmental stewardship and economic prosperity.

WAXIE is best positioned to assist City of Tucson with its zero waste product packaging which is made from recycled materials and is itself recyclable, containers & systems with associated messaging which will assist the City with its landfill diversion efforts (through either recycling or composting), and access to metrics where available to help measure effectiveness of waste diversion efforts.

One example is the WAXIE Solution Station Dilution Control System — concentrated product which contributes to waste minimization through source reduction (generating less packaging waste in the first place), packaged in recycled content corrugated which is itself recyclable, and further packaged in plastic containers which are recyclable. Another example is the Big Belly Solar Intelligent Waste & Recycling Collection System — solar panels power compaction in place which removes 4 out of every 5 collection trips (streamlining operations resulting in reduced collection trips and associated greenhouse gas emissions), and collection metrics are visible in real-time via any web-enabled device (allowing online visibility to track its waste diversion efforts and recyclables and compostable collections).

WAXIE can assist City of Tucson with its reduced potable water consumption goals by offering water efficient accessories for restrooms and water conserving cleaning equipment and tools. One example includes flow control valves and auto faucets for sinks, flush valves for urinals and commodes and zero water urinals all of which reduce and/or regulate the amount of water used by restroom visitors. Another example is the Rubbermaid Hygen Mopping System which re-circulates and cleans the dirty water in the bucket, allowing custodial staff to mop with clean water without having to go back to the janitor sink to fill up the bucket with more water — in addition, cleaning results are improved because the system helps prevent dirty water from being spread from the mop bucket back on to the floor.

Green Packaging - WAXIE

There is an increasing interest in using less material and optimizing the use of recycled content in packaging as more and more organizations like the City of Tucson look for green cleaning supplies to use in a low environmental impact cleaning program. Items to consider include overall source reduction, recycled content in corrugated boxes, recycled plastic in product containers, and the ability to recycle all of these materials once they have been used.
Some specific examples of how WAXIE mitigates the impact of waste packaging for its clients include the following:

WAXIE private labeled cleaning chemicals are packaged in corrugated boxes which are made from 100% post-consumer recycled content

Plastic containers are 100% recyclable.

In accordance with SB 235, plastic containers containing WAXIE privately labeled chemicals have had their gram weight reduced 10% (from 120 grams to 108 grams).

Chemical dilution control systems offered by WAXIE, which assist in converting from ready-to-use products to concentrated dilution control systems save on packaging, transportation and disposal costs.

Coreless bath tissue has eliminated the cardboard core and paper wrapper from each roll of toilet tissue – the result is a 33%-55% reduction in packaging materials, depending on the product SKU.

Roll paper hand towels represent a significant source reduction opportunity when compared to folded hand towels – typically resulting in up to 35% reduction in paper product usage.

Quarterly Business Reviews
WAXIE will hold quarterly meetings with appropriate City of Tucson departments and purchasing to discuss KPIs and areas for improvement. WAXIE’s proactive approach to contract compliance/measurement reduces much of the customer burden of contract management. WAXIE dashboards and scorecards follow metrics agreed upon by City of Tucson management to ensure financial success. These include sales for the period; order size; diversity sales; core vs. non-core spend; service level; fill rate and green spend. Reports can be automated and delivered on a scheduled basis and can be available online 24/7. Dashboards are a tool for measurement and can be customized for the City of Tucson. They can be reported by location, by region, department or globally and can be product specific, by product line or for the entire catalog. WAXIE online metrics dashboard allow the City of Tucson procurement team to download an excel file with every line item transacted on contract for the prior two years giving the City of Tucson a continuous audit capability for pricing integrity.

Customized Programs
WAXIE offers several customized programs to meet our customers current and future needs. These programs include Spend Management, Work Loading, and Deliver Clean Savings.

Spend Management Program
This program contains multiple elements that will benefit the City of Tucson and its employees. Examples of Spend Management programs that WAXIE can support include but are not limited to the following: Scheduled Deliveries, Par Level Management, Rental and Leasing Programs, Product Mix and Optimization, and Order Consolidation.

Work Loading
WAXIE utilizes a work loading software program to drive cost savings by reducing labor and implementing best practices. Work loading allows the customer to maximize productivity while reducing labor, which is the highest cost of cleaning. Please see Proposal Response WAXIEApps Consultative Software Tools brochure.
Deliver Clean Savings

WAXIE’s Deliver Clean Savings Program will provide the City of Tucson with both a planning and reporting tool on the savings available and savings realized with a properly managed supply chain. The program involves a holistic, extensive survey of facility cleaning efficacy and efficiency. Logistics, processes, procedures, and products are assessed, and recommendations are formulated to optimize results and reduce costs. A collaborative strategic plan is formulated to implement goals and a path for long term continuous improvement.

This program allows the City of Tucson to focus on reducing inventory receiving and carrying costs at each step in the supply chain. WAXIE has been able to show reductions in overall supply chain costs in excess of 12% for college campuses, Cities, Counties, acute care hospitals and K-12 systems.

DCS® was created and refined to find inefficiencies in the supply chain and target those areas for potential savings. Please see Proposal Response WAXIE Deliver Clean Savings Brochure and WAXIE DCS® Sample Results.

Network Services has the three key factors of the NETWORK and OMNIA program:

**SCALE:** NETWORK provides products to 95% of the U.S. population base. Our members currently are growing, viable business within the locales that OMNIA wants to service. We know the needs of these agencies because over the 51 year history of Network, we continue to do business with a number of these agencies.

**SCOPE:** NETWORK is the market leader for janitorial distribution; the core of our business for the past 51 years. OMNIA needs a business partner that understands and can answer the market needs around sanitation, cleanliness, sustainability, personal health and wellness in a cost and labor effective manner. In support of this, we know that implementing standard business practices and programs helps hold costs down for all parties.

**WILL:** NETWORK understands the value created by collaborative and group purchasing programs. We are a leader in the Healthcare market where this purchasing methodology is accepted best practice. We’re excited about the new opportunities the OMNIA program can provide NETWORK and continuing to grow relationships we’ve developed over the last five years. We look forward to the opportunity to work and grow together; mutually working to build a program that delivers value for all constituents.

NETWORK has ten (10) years of successful experience in servicing, growing and developing lasting relationships with The City, OMNIA and their agencies; during our current contract agreement. The commitment to succeed is displayed by both parties’ supporting the progress we’ve made in a short time.

4. Describe the current distribution model capable of delivering products nationwide, including the number, size and location of your company’s distribution facilities, warehouses and retail network, where applicable. Describe your coverage of the United States.

Network Services Company was established in 1968 to provide products and related services to corporate account customers on behalf of our distributors. Today, NETWORK is North America’s leading and largest distributor of paper, janitorial housekeeping and maintenance supplies, industrial packaging, food service disposables, printing paper and related products. With over $16 billion in total annual sales, NETWORK manages national programs for corporate account customers across the U.S. Operating over 400 distribution facilities throughout North America, Canada, Mexico, Puerto Rico and the U.S. Virgin Islands; NETWORK provides a broad product selection, having built strategic alliances with the industry’s best in class manufacturers over the last 51 years. NETWORK’s award winning technology platform and dedication to superior customer service to more than 1,300,000 customer locations are only some of the advantages NETWORK offers to corporate account customers.
NETWORK, as an organization, focuses mainly on five specific business segments: Public Sector/Commercial Real Estate/Building Services, Healthcare, Foodservice, the Hospitality and Industrial Packaging corporate accounts. Our strength is in these segments, utilizing our programs and products in the following categories: Janitorial supplies - including towel & tissue, can liners, hand soaps and sanitizers, chemicals, janitorial housekeeping supplies, janitorial equipment sales and personal & safety products; as well as food service disposables, industrial packaging, segment and/or customer specific products, etc. Our programs provide Flexibility, Accountability and Expertise, as compared to one-size-fits-all models. Please refer to the attached Proposal Response NETWORK Distributor Warehouses listing.

C. Price Proposal

1. Provide price proposal as requested on the Price Page (See Attachment B).

NETWORK’s proposal is a fixed price format; based on manufacturer pricing established specifically for OMNIA. The fixed price format allows manufacturers to provide longer term pricing guarantees. This benefits OMNIA in that you know your fixed price for items and can determine the commensurate value provided by the product. The audit and verification process is simple; an agency just has to compare the invoice price to the OMNIA price list.

See Attachment B – National Core List for product listing with requested information. This is not the full offering in place today for The City of Tucson and OMNIA Partners but rather only a sampling of the requested items to quote in this RFP.

2. Provide available payment terms.

Payment terms are Net 30 days from invoice date via ACH or Check Only.

Acceptance of credit cards and associated fees will be determined by each marketing area.

3. As stated in the Instructions to Offerors, 7. Discounts, the price(s) herein can be discounted by ____% if payment is made within ____ days. These payment terms shall apply to all purchases and to all payment methods.

22. INSPECTION AND ACCEPTANCE: All material or service is subject to final inspection and acceptance by the City. Material or service failing to conform to the specifications of this Contract shall be held at the Contractor’s risk and may be returned to the Contractor in accordance with Contractor’s return policies communicated to The City. Except as set forth in Contractor’s return policies. If returned, all costs are the responsibility of the Contractor. Noncompliance may be deemed a cause for possible Contract termination.

23. INTERPRETATION-PAROL EVIDENCE: This Contract is intended by the parties to be a final expression of their agreement and is intended also as a complete and exclusive statement of the terms of this agreement. No course of prior dealings between the parties and no usage of the trade shall be relevant to supplement or explain any term used in the Contract. Acceptance or consent in the course of performance under this Contract shall not be relevant to determine the meaning of this Contract even though the accepting or consenting party has knowledge of the nature of the performance and the opportunity to object.

24. ISRAEL BOYCOTT DIVESTMENTS: Acceptance of the contract warrants that the vendor is in compliance with A.R.S. § 35-393 and does not participate in a boycott of Israel as that term is defined within A.R.S. § 35-393.

25. LICENSES: Contractor shall maintain in current status all Federal, State, and local licenses and permits required for the operation of the business conducted by the Contractor as applicable to this Contract.

26. LIENS: All materials, services, and other deliverables supplied to the City under this Contract shall be free of all liens other than the security interest. Security interest shall extinguish upon full payment made by the City. Upon the City’s request, the Contractor shall provide a formal release of all liens.

27. NO REPLACEMENT OF DEFECTIVE TENDER: Every tender of materials must fully comply with all provisions of this Contract. If a tender is made which does not fully comply, this shall conform to the termination clause set forth within this document.

28. NON-EXCLUSIVE CONTRACT: Any contract resulting from this solicitation shall be awarded with the understanding and agreement that it is for the sole convenience of the City of Tucson. The City reserves the right to obtain like goods or services from another source when necessary.

29. OVERCHARGES BY ANTITRUST VIOLATIONS: The City maintains that, in actual practice, overcharges resulting from antitrust violations are borne by the purchaser. Therefore, to the extent permitted by law, the Contractor hereby assigns to the City any and all claims for such overcharges as to the materials or services used to fulfill the Contract.
30. PAYMENT: The City's preferred method of payment is via credit card. The City will issue a Purchase Order and, in some cases, either provide a credit card for payment at the time of ordering or pay subsequent invoices by credit card upon receipt of goods or services in good order. Payments shall be made by ACH or by bank check. However, not all City employees will possess a credit card and, therefore, the City reserves the right to make payment by check as it deems necessary.

Unless payment is made by credit card at time of order or point of sale, a separate invoice shall be issued for each shipment of material or service performed, and no payment shall be issued prior to receipt of material or service and correct invoice. The invoice shall not be dated prior to the receipt of goods or completion of services.

The City shall make every effort to process payment for the purchase of materials or services within twenty-one (21) calendar days after receipt of materials or services and a correct invoice.

The Contractor's payment terms shall apply to all purchases and to all payment methods.

All amounts owed by the City are to be received by Contractor within thirty (30) days from invoice date. Payments made by methods other than ACH or bank check may result in an increase in pricing to offset their related administrative costs, as determined in the reasonable judgment of Contractor.

31. PROTECTION OF GOVERNMENT PROPERTY: The Contractor shall use reasonable care to avoid damaging existing buildings, equipment, and vegetation (such as trees, shrubs, and grass) on City property. If the Contractor fails to do so and damages such property, the Contractor shall replace or repair the damage at no expense to the City, as determined and approved by the City's Director of Procurement. If the Contractor fails or refuses to make such repair or replacement, the City will determine the reasonable and actual cost and the Contractor shall be liable for the cost thereof, which may be deducted from the Contract price.

32. PROVISIONS REQUIRED BY LAW: Each and every provision of law and any clause required by law to be in the Contract shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted, or is not correctly inserted, then upon the application of either party the Contract shall be amended to make such insertion or correction.

33. RECORDS: Internal control over all financial transactions related to this Contract shall be in accordance with sound fiscal policies. The City may, at reasonable times and places, audit the books and records of the Contractor and/or any subcontractors. Said audit shall be limited to this Contract.

34. RIGHT TO ASSURANCE: Whenever one party to this Contract has reason to question, in good faith, the other party's intent to perform, the former party may demand that the other party give a written assurance of this intent to perform. In the event that a demand is made and no written assurance is given within five (5) days, the demanding party may treat this failure as the other party's intent not to perform and as a cause for possible Contract termination.

35. RIGHT TO INSPECT: The City may, at reasonable times, and at the City's expense, inspect the place of business of a Contractor or subcontractor which is related to the performance of any Contract as awarded or to be awarded.

36. RIGHTS AND REMEDIES: No provision in this document or in the Contractor's proposal shall be construed, expressly or by implication, as a waiver by either party of any existing or future right and/or remedy available by law in the event of any claim, default or breach of contract. The failure of either party to insist upon the strict performance of any term or condition of the Contract, to exercise or delay the exercise of any right or remedy provided in the Contract or by law, or to accept materials or services required by this Contract or by law shall not be deemed a waiver of any right of either party to insist upon the strict performance of the Contract.
37. **SEVERABILITY**: The provisions of this Contract are severable to the extent that any provision or application held to be invalid shall not affect any other provision or application of the Contract which may remain in effect without the valid provision or application.

38. **SHIPMENT UNDER RESERVATION PROHIBITED**: No tender of a bill of lading shall operate as a tender of the materials. Non-compliance shall conform to the termination clause set forth within this document.

39. **SUBCONTRACTS**: No subcontract shall be entered into by the Contractor with any other party to furnish any of the material/service specified herein without the advance written approval of the City's Director of Procurement. All subcontracts shall comply with Federal and State laws and regulations which are applicable to the services covered by the subcontract and shall include all the terms and conditions set forth herein which shall apply with equal force to the subcontract, as if the subcontract were the Contractor referred to herein. The Contractor is responsible for contract performance whether or not subcontractors are used. Notwithstanding the foregoing, the City hereby acknowledges and agrees that the products and services shall be provided by Contractor through its member-distributors and hereby expressly consents to the provision of the products and services by Contractor through its member-distributors, without further notice or approval being required.

40. **SUBSEQUENT EMPLOYMENT**: The City may terminate this Contract without penalty or further obligation pursuant to A.R.S. Section 38-511 if any person significantly involved in initiating, negotiating, securing, drafting, or creating the Contract, on behalf of the City, is or becomes, at any time while the Contract or any extension of the Contract is in effect, an employee of, or a contractor to, any other party to this Contract with respect to the subject matter of the Contract. Termination shall be effective when written notice from the City's Director of Procurement is received by the parties to this Contract, unless the notice specifies a later time.

41. **TERMINATION OF CONTRACT**: This Contract may be terminated at any time by mutual written consent, or by the City, with or without cause, upon giving thirty (30) days written notice. The City, at its convenience, by written notice, may terminate this Contract, in whole or in part. If this Contract is terminated, the City shall be liable only for payment under the payment provisions of this Contract for services rendered and accepted material received by the City before the effective date of termination.

The City reserves the right to terminate the whole or any part of this Contract due to the failure of the Contractor to carry out any term or condition of the Contract. The City will issue a written ten (10) day notice of default to the Contractor for acting or failing to act as specified in any of the following:

- In the opinion of the City, the Contractor provides personnel that do not meet the requirements of the Contract;
- In the opinion of the City, the Contractor fails to perform adequately the stipulations, conditions or services/specifications required in this Contract;
- In the opinion of the City, the Contractor attempts to impose personnel, materials, products or workmanship of an unacceptable quality;
- The Contractor fails to furnish the required service and/or product within the time stipulated in the Contract;
- In the opinion of the City, the Contractor fails to make progress in the performance of the requirements of the Contract;
- The Contractor gives the City a positive indication that the Contractor will not or cannot perform to the requirements of the Contract.

Contractor reserves the right to terminate the whole or any part of this Contract due to the failure of the City to carry out any term or condition of the Contract, if such failure is not cured within ten (10) days of the notice of default. Contractor will issue a written ten (10) day notice of default to the City for acting or failing to act in accordance with the terms or conditions of the Contract.
Each payment obligation of the City created by this Contract is conditioned upon the availability of City, State and Federal funds that are appropriated or allocated for the payment of such an obligation. If funds are not allocated by the City and available for the continued purchase of the services and/or materials provided under this Contract, this Contract may be terminated by the City at the end of the period for which funds are available. The City will endeavor to notify the Contractor in the event that continued service will or may be affected by non-appropriation. No penalty shall accrue to the City in the event this provision is exercised, and the City shall not be obligated or liable for any future payments due or for any damages as a result of termination under this paragraph.

42. TITLE AND RISK OF LOSS: The title and risk of loss of material or service shall not pass to the City until the City actually receives the material or service at the point of delivery, unless otherwise provided within this Contract.

43. WARRANTIES: Contractor warrants that all material or service delivered under this Contract shall conform to the specifications of this Contract. Mere receipt of shipment of the material or service specified and any inspection incidental thereto by the City shall not alter or affect the obligations of the Contractor or the rights of the City under the foregoing warranties. Additional warranty requirements may be set forth in this document. ALL PRODUCTS PROVIDED TO THE CITY UNDER THIS CONTRACT BY CONTRACTOR ARE PROVIDED “AS IS,” AND CONTRACTOR MAKES NO EXPRESS OR IMPLIED WARRANTIES REGARDING ANY PRODUCTS. NOTWITHSTANDING THE FOREGOING, CONTRACTOR SHALL PASS THROUGH TO THE CITY ALL WARRANTIES AND INDEMNIFICATIONS, IF ANY (IF AND TO THE EXTENT CONTRACTOR REMAINS PROTECTED THEREUNDER), THAT CONTRACTOR RECEIVES FROM THE MANUFACTURERS OF THE PRODUCTS.

Our responses to section 3.0 and its subsections can be found directly below the subsection in blue font.

1.1 Requirement

The City of Tucson (hereinafter defined and referred to as “Principal Procurement Agency”), on behalf of itself and the National Intergovernmental Purchasing Alliance Company, a Delaware corporation d/b/a OMNIA Partners, Public Sector (“OMNIA Partners, Public Sector”), is requesting proposals for Janitorial and Sanitation Supplies, Equipment, and Related Services. The intent of this Request for Proposal is any contract between Principal Procurement Agency and Supplier resulting from this Request for Proposal (“Master Agreement”) be made available to other public agencies nationally, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit (“Public Agencies”), through OMNIA Partners, Public Sector’s cooperative purchasing program. The Principal Procurement Agency has executed a Principal Procurement Agency Certificate with OMNIA Partners, Public Sector, an example of which is included as Exhibit D, and has agreed to pursue the Master Agreement. Use of the Master Agreement by any Public Agency is preceded by their registration with OMNIA Partners, Public Sector as a Participating Public Agency in OMNIA Partners, Public Sector’s cooperative purchasing program. Registration with OMNIA Partners, Public Sector as a Participating Public Agency is accomplished by Public Agencies entering into a Master Intergovernmental Cooperative Purchasing Agreement, an example of which is attached as Exhibit C, and by using the Master Agreement, any such Participating Public Agency agrees that it is registered with OMNIA Partners, Public Sector, whether pursuant to the terms of the Master Intergovernmental Purchasing Cooperative Agreement or as otherwise agreed to. The terms and pricing established in the resulting Master Agreement between the Supplier and the Principal Procurement Agency will be the same as that available to Participating Public Agencies through OMNIA Partners, Public Sector.
All transactions, purchase orders, invoices, payments etc., will occur directly between the Supplier and each Participating Public Agency individually, and neither OMNIA Partners, Public Sector, any Principal Procurement Agency nor any Participating Public Agency, including their respective agents, directors, employees or representatives, shall be liable to Supplier for any acts, liabilities, damages, etc., incurred by any other Participating Public Agency. Supplier is responsible for knowing the tax laws in each state.

This Exhibit A defines the expectations for qualifying Suppliers based on OMNIA Partners, Public Sector’s requirements to market the resulting Master Agreement nationally to Public Agencies. Each section in this Exhibit A refers to the capabilities, requirements, obligations, and prohibitions of competing Suppliers on a national level in order to serve Participating Public Agencies through OMNIA Partners, Public Sector.

These requirements are incorporated into and are considered an integral part of this RFP. OMNIA Partners, Public Sector reserves the right to determine whether or not to make the Master Agreement awarded by the Principal Procurement Agency available to Participating Public Agencies, in its sole and absolute discretion, and any party submitting a response to this RFP acknowledges that any award by the Principal Procurement Agency does not obligate OMNIA Partners, Public Sector to make the Master Agreement available to Participating Procurement Agencies.

1.2 Marketing, Sales and Administrative Support

During the term of the Master Agreement OMNIA Partners, Public Sector intends to provide marketing, sales, partnership development and administrative support for Supplier pursuant to this section that directly promotes the Supplier’s products and services to Participating Public Agencies through multiple channels, each designed to promote specific products and services to Public Agencies on a national basis.

OMNIA Partners will assign the Supplier a Director of Partner Development who will serve as the main point of contact for the Supplier and will be responsible for managing the overall relationship between the Supplier and OMNIA Partners. The Director of Partner Development will work with the Supplier to develop a comprehensive strategy to promote the Master Agreement and will connect the Supplier with appropriate stakeholders within OMNIA Partners including, Sales, Marketing, Contracting, Training, and Operations & Support.

1.3 Estimated Volume

The dollar volume purchased under the Master Agreement is estimated to be approximately $110 million annually. While no minimum volume is guaranteed to Supplier, the estimated annual volume is projected based on the current annual volumes among the Principal Procurement Agency, other Participating Public Agencies that are anticipated to utilize the resulting Master Agreement to be made available to them through OMNIA Partners, Public Sector, and volume growth into other Public Agencies through a coordinated marketing approach between Supplier and OMNIA Partners, Public Sector.
1.4 Award Basis

The basis of any contract award resulting from this RFP made by Principal Procurement Agency will, at OMNIA Partners, Public Sector’s option, be the basis of award on a national level through OMNIA Partners, Public Sector. If multiple Suppliers are awarded by Principal Procurement Agency under the Master Agreement, those same Suppliers will be required to extend the Master Agreement to Participating Public Agencies through OMNIA Partners, Public Sector. Utilization of the Master Agreement by Participating Public Agencies will be at the discretion of the individual Participating Public Agency. Certain terms of the Master Agreement specifically applicable to the Principal Procurement Agency (e.g. governing law) are subject to modification for each Participating Public Agency as Supplier, such Participating Public Agency and OMNIA Partners, Public Sector shall agree without being in conflict with the Master Agreement. Participating Agencies may request to enter into a separate supplemental agreement to further define the level of service requirements over and above the minimum defined in the Master Agreement (i.e. invoice requirements, order requirements, specialized delivery, diversity requirements such as minority and woman owned businesses, historically underutilized business, governing law, etc.). It shall be the responsibility of the Supplier to comply, when applicable, with the prevailing wage legislation in effect in the jurisdiction of the Participating Agency. It shall further be the responsibility of the Supplier to monitor the prevailing wage rates as established by the appropriate department of labor for any increase in rates during the term of the Master Agreement and adjust wage rates accordingly. Any supplemental agreement developed as a result of the Master Agreement is exclusively between the Participating Agency and the Supplier (Contract Sales are reported to OMNIA Partners, Public Sector).

All purchase orders issued and accepted by the Supplier may survive expiration or termination of the Master Agreement. Participating Agencies’ purchase orders may exceed the term of the Master Agreement if the purchase order is issued prior to the expiration of the Master Agreement. Supplier is responsible for reporting all sales and paying the applicable administrative fee for sales that use the Master Agreement as the basis for the purchase order, even though Master Agreement may have expired.

1.5 Objectives of Cooperative Program

This RFP is intended to achieve the following objectives regarding availability through OMNIA Partners, Public Sector’s cooperative program:

A. Provide a comprehensive competitively solicited and awarded national agreement offering the Products covered by this solicitation to Participating Public Agencies;

B. Establish the Master Agreement as the Supplier’s primary go to market strategy to Public Agencies nationwide;

C. Achieve cost savings for Supplier and Public Agencies through a single solicitation process that will reduce the Supplier’s need to respond to multiple solicitations and Public Agencies need to conduct their own solicitation process;

D. Combine the aggregate purchasing volumes of Participating Public Agencies to achieve cost effective pricing.
2.0 REPRESENTATIONS AND COVENANTS

As a condition to Supplier entering into the Master Agreement, which would be available to all Public Agencies, Supplier must make certain representations, warranties and covenants to both the Principal Procurement Agency and OMNIA Partners, Public Sector designed to ensure the success of the Master Agreement for all Participating Public Agencies as well as the Supplier.

2.1 Corporate Commitment

Supplier commits that (1) the Master Agreement has received all necessary corporate authorizations and support of the Supplier's executive management, (2) the Master Agreement is Supplier's primary “go to market” strategy for Public Agencies, (3) the Master Agreement will be promoted to all Public Agencies, including any existing customers, and Supplier will transition existing customers, upon their request, to the Master Agreement, and (4) that the Supplier has read and agrees to the terms and conditions of the Administration Agreement with OMNIA Partners, Public Sector and will execute such agreement concurrent with and as a condition of its execution of the Master Agreement with the Principal Procurement Agency. Supplier will identify an executive corporate sponsor and a separate national account manager within the RFP response that will be responsible for the overall management of the Master Agreement.

(2) The Master Agreement is one of NETWORK's primary “go to market” strategies for all Public Agencies.

2.2 Pricing Commitment

Supplier commits the not-to-exceed pricing provided under the Master Agreement pricing is its lowest available (net to buyer) to Public Agencies nationwide and further commits that if a Participating Public Agency is eligible for lower pricing through a national, state, regional or local or cooperative contract, the Supplier will match such lower pricing to that Participating Public Agency under the Master Agreement.

NETWORK and WAXIE are offering pricing to City of Tucson, Omnia, and Participating Public Agencies (PPA's) based on NETWORK negotiated product costs offered by contracted manufacturers. These cost supports are based on a number of factors including the volume of purchases, and determined by the manufacturer; not the distributor. This offer includes pricing offered exclusively for The City of Tucson/Omnia.

Participating Public Agencies receive the benefit of the aggregate spend of OMNIA Partners.

NETWORK and WAXIE will offer City of Tucson and PPAs the same price as other customers utilizing similar procurement methods and purchasing similar volumes of product, with the same manufacturer cost supports. WAXIE will make City of Tucson aware of any consortium or Group Purchasing Organization pricing program opportunities that would afford City of Tucson a better overall spend for the products awarded.
NETWORK and WAXIE monitor competitive pricing and product mix annually. We agree to negotiate in good faith to lower any prices that are misaligned with the market. Misalignment with the market is determined by feedback from contract participants, lost opportunities, and/or other market intelligence as received or gathered from any source.

2.3 Sales Commitment

Supplier commits to aggressively market the Master Agreement as its go to market strategy in this defined sector and that its sales force will be trained, engaged and committed to offering the Master Agreement to Public Agencies through OMNIA Partners, Public Sector nationwide. Supplier commits that all Master Agreement sales will be accurately and timely reported to OMNIA Partners, Public Sector in accordance with the OMNIA Partners, Public Sector Administration Agreement. Supplier also commits its sales force will be compensated, including sales incentives, for sales to Public Agencies under the Master Agreement in a consistent or better manner compared to sales to Public Agencies if the Supplier were not awarded the Master Agreement.

NETWORK and WAXIE will compensate our sales forces under the compensation structure currently employed to promote sales of our Public Sector contracts. We utilize the same compensation structure to incent sales for all segments of our business.

To help drive the utilization and awareness of these products, certifications such as Green Seal, etc. are clearly indicated and searchable within our on-line ordering system, NetSupply. We offer a full line of environmentally-preferred products and a proprietary evaluation program, NetGreen.

G. Describe any diversity programs or partners supplier does business with and how Participating Agencies may use diverse partners through the Master Agreement. Indicate how, if at all, pricing changes when using the diversity program.

For the City of Tucson and all WAXIE serviced sites, WAXIE has two programs for ESB/MBE and WBE participation in our contracts.

Tier One: Since many public sector agencies require or prefer to work through a disadvantaged business partner, WAXIE has developed a network of reputable small disadvantaged businesses that we authorize to support the contract through sales, customer service, and other commercially useful functions. All of our Emerging Small Business/Minority-owned Business Enterprise partners already work extensively with WAXIE on federal, state, local, and commercial accounts. WAXIE does not dedicate any particular work to any MBE. Each MBE is enabled to develop sales or propose other value added work based on their ability to perform.

WAXIE constantly seeks additional qualified ESB/MBE and WBE small businesses to add to our list of partners. Reporting of first tier qualifying spend by account is available.
Tier Two: WAXIE purchases supplies from hundreds of manufacturers and many of those are small businesses, women owned, minority owned, veteran owned and other historically disadvantaged business enterprises. Spend from these second tier vendors is tracked and available for reporting at the item level for all customers. Currently our Public Sector spend overall includes more than 25% of sales from vendors that qualify as historically disadvantaged. For a sample of those products and vendors, please see Exhibit A 3.1G for WAXIE Sample Green and Diversity Business Products list.

Customers choosing to use our ESB/MBE, WBE, and other historically disadvantaged business partners, pay an additional 5% added to the price of each product. In many, if not most, cases customers will be able to negotiate other discounts to offset this additional fee. WAXIE’s disadvantaged business partners provide valuable services. Rather than distribute the cost associated with those services to all contract users, we believe fairness dictates that these costs be applied where incurred. All products sold and services offered by WAXIE under contract will be available through our small or disadvantaged business affiliates.

As outlined above, many NETWORK distributors have similar capabilities in their local geography. While programs may vary, as do local needs, NETWORK is able to provide diverse solutions for Omnia PPA’s.

Nationally, NETWORK distributors work through disadvantaged businesses on a regular basis. We will reflect utilize our local communities and deploy supply chain solutions that reflect the communities we do business in. Often times there is an up charge to include another party. Pricing and capabilities are discussed well in advance and are conducted with full transparency.

H. Describe any historically underutilized business certifications supplier holds and the certifying agency. This may include business enterprises such as minority and women owned, small or disadvantaged, disable veterans, etc.

Neither WAXIE nor NETWORK are diversity certified. We each have an active program to seek out opportunities for redistribution and other functions by diverse companies, particularly those recognized by the Federal Government as service related disabled veteran, small, women, or minority owned.

WAXIE has many small business, women owned business, service disabled veteran owned business, veteran owned business, minority owned business, as well as 8A and hub-zone operated business partners providing contracting, sales, and supplies. Currently over 25% of the products we sell to our public sector clients are made by manufacturers that are historically disadvantaged business enterprises as defined by federal requirements.

NETWORK as a whole, does not qualify as a diverse supplier, however, many of our distributors are Woman Owned, Small Business, Minority Owned, or Veteran Owned certified businesses. Customer location alignment is subject to NETWORK’s assignment policies and procedures which consider delivery areas, core competency, product availability, manufacturer relationships, etc. Locations can be evaluated and aligned with diverse NETWORK distributors, whenever possible, upon request prior to location assignments. This is a detailed process utilizing various internal tools which consider freight free delivery areas, core competency, existing business, selected manufacturer programs, ability to service multiple locations, etc. Details will be provided once program needs are fully established. Attached is a chart listing distributor qualifications, Exhibit A 3.1H – NETWORK – Special Business Status Summary.

In addition, NETWORK and WAXIE are equal opportunity employers committed to following the letter and spirit of laws prohibiting discrimination in the workplace. It offers equal opportunities in employment to qualified people without regard to race, color, religion, national origin, ancestry, citizenship, age, sex, disability, or other legally protected status as required by applicable law. We strive to recruit, develop, and retain a multi-faceted
workforce, comprised of a variety of backgrounds and experience. This diversity in the workplace enriches our corporate cultures and enhances the relationships with our business partners. NETWORK Corporate Headquarters has a very diverse, non-discriminating workforce, where employees are able to embrace our different backgrounds through company events and celebrations.

I. Describe how supplier differentiates itself from its competitors.

For all WAXIE serviced sites, WAXIE has a track record with The City of Tucson that no competitor can match; WAXIE has moved more product, driven more innovation, and has been rewarded with greater customer satisfaction with the City of Tucson related business than our honored RFP competitors. WAXIE is more than hands-on; we are deeply partnered with all our City of Tucson touch points. WAXIE believes in, and supports, the City of Tucson moving beyond its own contracts, and into becoming a nationwide leader in large-entity procurement and fulfillment.

WAXIE differentiates ourselves by having orders delivered on time, at the right price, with no substitutions, and with exceptional customer service by a uniformed WAXIE team member in a clean, logoed WAXIE truck. We are here to listen to our customers and respond to their needs.

Our scale allows WAXIE to boast the infrastructure and logistical flexibility of a national distributor without sacrificing our family owned history which drives the ability to focus on customer needs.

"Serving the Customer is the Focus of Everything We Do" are more than just words to WAXIE; that is our mission. Whether it’s a crisis situation demanding a last-minute delivery, an all-night bilingual customer training session, or a timely equipment repair, we have proven the extent of our dedication to our customers time and again. WAXIE goes well above and beyond what most people would expect of us, in order to see that our customers’ needs are met. The WAXIE organization has been purpose-built from the ground up to serve those who are responsible for delivering clean and healthy buildings. The City of Tucson can continue to count on WAXIE to come through with the help you need, when you need it.

WAXIE Sanitary Supply has the logistics depth and experience to service your delivery needs through the use of a Transportation Management Software suite that enables WAXIE to properly utilize our fleet of over 200 vehicles as well as effectively interface with a number of transportation providers to include UPS, Less Than Truckload and Courier services.

Through WAXIE’s Distribution Centers and extensive fleet, WAXIE has been extremely effective at providing next day delivery to include customized delivery appointments, established delivery days and the ability to not only conduct dock deliveries, but accommodate a diverse set of unique requirements for inside deliveries to facilities that do not have a loading dock. This translates into greater efficiencies and labor cost savings for our partners.

Our fleet of delivery vehicles and Drivers are professionally logoed and are managed through a route optimization suite that enables WAXIE to monitor the delivery process from door to door using both GPS and a Driver mobility application. Our route optimization software minimizes WAXIE’s carbon footprint by significantly reducing travel time from the last stop to the next stop. Overall, less fuel is burned by optimizing the travel path and the time our trucks are on the road.

85% of WAXIE’s delivered volume is made on WAXIE-owned trucks. Unlike some other distributors, we do not use third party logistics companies for this critical service requirement.

In a climate where many business models are cutting professional, in-person sales consultants, WAXIE offers a dedicated account professional, a true partner and consultant. We feel this is much more valuable to our customers than simply having a catalog full of various products and a remote help desk with little or no idea how
to use them. In other words, WAXIE doesn’t just deliver the box, we know what’s inside and work with you to show Intermountain how to most efficiently use it.

Further, WAXIE is an industry leader in green and sustainable solutions for our partners. For more details on our Green Offerings and Commitment to Sustainability, please see Exhibit A 3.11 Green Partner Support Brochure, Exhibit A 3.11 Commitment to Sustainability Brochure, and Exhibit A 3.11 Commitment to Sustainability One-sheet respectively.

WAXIE is pleased to offer Virtual Managed Inventory software technology to the City of Tucson that can be employed by City of Tucson employees. We feature custom and proprietary software for mobile devices that links automatically to our enterprise software for replenishment orders.

As the employee counts the inventory, the proprietary app adds items to a shopping cart based on each item's par values for the closet. When the employee has completed the count for the closet, the order will be submitted to our website for approval and processing through our Electronic Storefront. This process includes the ability to assign multiple users to a closet for the purpose of taking inventories and allowing backup personnel to take inventories due to planned or emergency absences.

Other capabilities of this system include, but are not limited to:
- Scheduling of inventories by closet (daily, weekly or monthly basis) which is removed from the schedule after inventory is taken to avoid duplication by other assigned users
- Order approvers

- History of previous orders and the ability to auto-replenish

As a cost savings opportunity, WAXIE offers the technology as described above at no charge to The City of Tucson enabling your employees to do the inventories. The City of Tucson would simply supply their employees with smart devices and WAXIE will provide the app. Please see Exhibit 3.2A VMI Brochure.

**Deliver Clean Savings**® **(DCS)** Program

WAXIE's proprietary supply chain management program, Deliver Clean Savings® can demonstrate and measure cost savings and is offered to qualifying customers.

The program involves a holistic, extensive survey of facility cleaning efficacy and efficiency. Logistics, processes, procedures, and products are assessed, and recommendations are formulated to optimize results and reduce costs. A collaborative strategic plan is formulated to implement goals and a path for long term continuous improvement.

Assessment Teams will meet with appropriate staff to discover concerns and goals, and then physically examine facilities, equipment, and products. Teams include Supply Chain, Equipment Assessment, Product Assessment, and Facilities Maintenance. The Assessment Teams typically spend a half day in the facility, and return the following day to present findings and cost savings opportunities.

Then together, our teams and yours build a strategic plan that will initiate improvement and savings. As the strategic plan is executed, the process is repeated to provide long term continuous improvement.

DCS® was created and refined to find inefficiencies in the supply chain and target those areas for potential savings. Please see our attached Exhibit A 3.2A WAXIE DCS® Brochure and Exhibit A 3.2A WAXIE Sample DCS® results.

Qualifying customers can take advantage of WAXIE’s premier consulting service for supply chain analysis. To qualify, customers must agree to purchase their supplies from WAXIE through the City of Tucson/OMNIA contract and participate fully in the survey process. The program requires participation by procurement as well as all necessary operating departments. Cost reductions of 20-25% hard costs are a common result.

Nationally, NETWORK will conduct site visits with our experienced selling organization to provide a customized supply chain solution for end users. The breadth and depth of our team allows us to be consultative sellers while tapping our experiences for best results. Also during the business reviews we will make recommendations for cost savings and process improvement. H. Describe in detail how Supplier’s national sales force is structured, including contact information for the highest-level executive in charge of the sales team.

For The City of Tucson and all sites serviced by WAXIE, the account management team consists of one or more sales consultants at each location. Each sales consultant is backed by a dedicated sales manager who maintains relationships and visits the location regularly. These in turn may be backed by a Regional Sales Manager, and all are backed by a General Manager for their local branch. All Team Members are guided and supported by Corporate Accounts Director Amanda Parent, V.P. Corporate Accounts, Steve Thomas, and WAXIE President & COO, Jeff Roberts.

Nationally, a dedicated Account Manager, TBD, is aligned to each future location, across the U.S. Each sales professional is a subject matter expert, focused on providing solutions to issues that impact your locations. Providing best-in-class support and service, our sales professionals collaborate at the local level to understand the unique requirements and needs of locations. Contact information is finalized as locations are engaged.

Frank Barretta, Executive Director, will continue to oversee and manage the partnership with the OMNIA corporate purchasing team. Frank is responsible for communicating program details and requirements throughout the NETWORK organization. Frank has had a relationship with the National IPA/OMNIA corporate team for over a decade. Contact information is provided above.

Rebecca Barraza, Vice President of Business Development is available to assist Frank Barretta with new and existing opportunities and challenges, as needed. Rebecca will also act as resource when Frank is unavailable during personal time out of the office. Contact information is provided above.

Kevin Rudd, Chief Sales and Marketing Officer, is a valuable resource the entire sales team, internally at NETWORK corporate, as well as for our distributors.
krudd@networkdistribution.com, or 847.219.9643.

I. Explain in detail how the sales teams will work with the OMNIA Partners, Public Sector team to implement, grow and service the national program.

For The City of Tucson and WAXIE serviced sites, WAXIE’s Corporate Accounts Director will generate target lists with location and department level detail, using existing BI software. WAXIE CAD will schedule launch meetings at WAXIE Branch offices, within 30 days of award, to share target information, and to introduce WAXIE sellers to OMNIA Partners sellers. Sellers can coordinate schedules to either create joint sales calls or
to divide workload, as appropriate. The City of Tucson locations will receive first priority in targeting opportunities. Other PPA’s in WAXIE’s geographic footprint will be prioritized by size of opportunity and perceived likelihood of success. Efforts will be tracked within WAXIE via CRM software. WAXIE CAD will maintain regular communication with OMNIA Partners counterpart to monitor and direct continued efforts.

For the rest of the nation, NETWORK and its distributors have a history of working with the OMNIA sellers to drive sales. Sellers are trained to align our sales reps to an OMNIA seller and the team then identifies targets to pursue in their local markets. This practice of targeting opportunities in the local market place provides direction to the sellers to pursue relevant opportunities with significant upside.

NETWORK coordinates our targeting activities with supplier partners who assist in developing co-branded marketing pieces. All sellers are held responsible to report back results against their target list. Marketing campaigns are held at various times over the course of the year to reflect market opportunities for specific products. As an example, we would run a marketing campaign for hand sanitizer during the cold and flu season.

OMNIA and NETWORK sellers often spend time together making joint calls and sharing of information in their local markets. With our 3,000 sales reps and OMNIA’s sales resources we have excellent coverage throughout the continental U.S.

I. Explain in detail how Supplier will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account setup, timely contract administration, etc.

As in our existing OMNIA relationship, there are touch points at all levels and daily engagement. Our sales teams meet for purposes of targeting, joint calls, and sharing of local information. Sales leadership for both organizations speak almost daily to address selling efforts and plan strategies. Marketing teams are developing initiatives to drive sales. Training is ongoing beyond the initial phase of contract details, there are constant updates to make sure our teams are in the know and current.

J. State the amount of Supplier’s Public Agency sales for the previous fiscal year. Provide a list of Supplier’s top 10 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.

WAXIE is a private, family-owned business. Due to our closely held nature, WAXIE does not disclose specific sales information. WAXIE services over 4,200 public sector customers with over 15,000 Ship-to locations throughout the western United States. This includes more than 1,900 customers with more than 8,300 Ship-to's in the K12-secondary and higher education markets. Our annual Public Agency sales are in the 9 digits.

NETWORK services almost 5,000 public sector customer locations in more than 30 states. Key sectors serviced include Primary and Secondary Education, Government Agencies, Non-Profit and Charitable Organizations, State and Local Government Agencies, and Healthcare. Our public agency sales are over $50 Million and includes the categories within this RFP; including but not limited to Towel & Tissue, Chemicals, Skin Care, Can Liners, Janitorial Supplies, and Apparel/Safety/Gloves. Additional categories include Foodservice Disposables, Industrial Packaging, Printing Papers, and Miscellaneous products.

K. Describe Supplier’s information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.
For the City of Tucson and all WAXIE serviced sites, WAXIE uses an IBM System I based software application from Infor called Distribution A+ as its ERP. Our e-commerce and PunchOut functionality is also provided by Infor called Storefront, which integrates to our ERP. Our main data center is located in San Diego, CA and our backup data center is located in WAXIE’s Mesa, AZ branch. All of WAXIE’s servers and application have redundant backups in Mesa for DR purposes.

WAXIE utilizes a cXML and XML based functionality for integrating to Oracle customers. We offer cXML PunchOut which ensures the customer’s backend systems have visibility to the items being ordered.

WAXIE also offers traditional EDI capabilities as one of the many ways in which we increase efficiencies in the order process and reduce our impact on the environment.

WAXIE has a number of different web-based solutions to support order management and fulfillment.

WAXIE’s shining differentiator when it comes to order entry is our online platform known as Web@Work. Web@Work® is WAXIE’s robust e-commerce solution and is a full-featured online ordering platform. M. Provide the Contract Sales (as defined in Section 10 of the OMNIA Partners, Public Sector Administration Agreement) that Supplier will guarantee each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales").

$_______.00 in year one
$_______.00 in year two
$_______.00 in year three

To the extent Supplier guarantees minimum Contract Sales, the administration fee shall be calculated based on the greater of the actual Contract Sales and the Guaranteed Contract Sales.

In that there is no requirement that The City of Tucson must purchase from this contract and as there may be multiple awardees to this RFP, WAXIE and NETWORK do not wish to guarantee sales.

M. Even though it is anticipated many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation for Products covered under the Master Agreement.

i. Respond with Master Agreement pricing (Contract Sales reported to OMNIA Partners, Public Sector).

ii. If competitive conditions require pricing lower than the standard Master Agreement not-to-exceed pricing, Supplier may respond with lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales are reported as Contract Sales to OMNIA Partners, Public Sector under the Master Agreement.

iii. Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to OMNIA Partners, Public Sector).

iv. If alternative or multiple proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional proposal.

Detail Supplier’s strategies under these options when responding to a solicitation.
WAXIE and NETWORK will deploy whichever strategy we believe will help us earn the business. Our local Account Consultants work alongside OMNIA sales resources and will collaborate based on the individual needs of a site location to develop the best strategy going forward to meet the local needs. Our goal is to provide long term value to the local Public Agency based on optimizing the benefits of this agreement.

FEDERAL CERTIFICATIONS
ADDENDUM FOR AGREEMENT FUNDED BY U.S. FEDERAL GRANT

TO WHOM IT MAY CONCERN:

Participating Agencies may elect to use federal funds to purchase under the Master Agreement. This form should be completed and returned.

DEFINITIONS

Contract means a legal instrument by which a non-Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non-Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward.

Contractor means an entity that receives a contract as defined in Contract.

Cooperative agreement means a legal instrument of financial assistance between a Federal awarding agency or pass-through entity and a non-Federal entity that, consistent with 31 U.S.C. 6302-6305:
   (a) Is used to enter into a relationship the principal purpose of which is to transfer anything of value from the Federal awarding agency or pass-through entity to the non-Federal entity to carry out a public purpose authorized by a law of the United States (see 31 U.S.C. 6101(3)); and not to acquire property or services for the Federal government or pass-through entity's direct benefit or use.
   (b) Is distinguished from a grant in that it provides for substantial involvement between the Federal awarding agency or pass-through entity and the non-Federal entity in carrying out the activity contemplated by the Federal award.
   (c) The term does not include:
      (1) A cooperative research and development agreement as defined in 15 U.S.C. 3710a; or
      (2) An agreement that provides only:
          (i) Direct United States Government cash assistance to an individual; (ii) A subsidy;
          (iii) A loan;
          (iv) A loan guarantee; or
          (v) Insurance.

Federal awarding agency means the Federal agency that provides a Federal award directly to a non-Federal entity.

Federal award has the meaning, depending on the context, in either paragraph (a) or (b) of this section:
   (a)(1) The Federal financial assistance that a non-Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability; or
   (2) The cost-reimbursement contract under the Federal Acquisition Regulations that a non-Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability.
   (b) The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of § 200.40 Federal financial assistance, or the cost-reimbursement contract awarded under the Federal Acquisition Regulations.
   (c) Federal award does not include other contracts that a Federal agency uses to buy goods or services from a contractor or a contract to operate Federal government owned, contractor operated facilities (GOCOs).
   (d) See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

Non-Federal entity means a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a Federal award as a recipient or subrecipient.

Nonprofit organization means any corporation, trust, association, cooperative, or other organization, not including IHEs, that:
   (a) Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;
   (b) Is not organized primarily for profit; and
   (c) Uses net proceeds to maintain, improve, or expand the operations of the organization.

Obligations means, when used in connection with a non-Federal entity's utilization of funds under a Federal award, orders placed for property and services, contracts and subawards made, and similar transactions during a given period that require payment by the non-Federal entity during the same or a future period.
**Pass-through entity** means a non-Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.

**Recipient** means a non-Federal entity that receives a Federal award directly from a Federal awarding agency to carry out an activity under a Federal program. The term recipient does not include subrecipients.

**Simplified acquisition threshold** means the dollar amount below which a non-Federal entity may purchase property or services using small purchase methods. Non-Federal entities adopt small purchase procedures in order to expedite the purchase of items costing less than the simplified acquisition threshold. The simplified acquisition threshold is set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908. As of the publication of this part, the simplified acquisition threshold is $150,000, but this threshold is periodically adjusted for inflation. (Also see definition of § 200.67 Micro-purchase.)

**Subaward** means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

**Subrecipient** means a non-Federal entity that receives a subaward from a pass-through entity to carry out part of a Federal program; but does not include an individual that is a beneficiary of such program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.

**Termination** means the ending of a Federal award, in whole or in part at any time prior to the planned end of period of performance.

The following certifications and provisions may be required and apply when Participating Agency expends federal funds for any purchase resulting from this procurement process. Pursuant to 2 C.F.R. § 200.326, all contracts, including small purchases, awarded by the Participating Agency and the Participating Agency’s subcontractors shall contain the procurement provisions of Appendix II to Part 200, as applicable.

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

Pursuant to Federal Rule (E) above, when a Participating Agency expends federal funds, offeror certifies that offeror will be in compliance with all applicable provisions of the Contract Work Hours and Safety Standards Act during the term of an award for all contracts by Participating Agency resulting from this procurement process.
